Aura Professional™ Conference Phone Affordable, Professional Conferencing Anywhere in the World

Do You Need A New Conferencing Phone?

Suppose you just upgraded to a larger conference room and now it fits fifteen people. Maybe you had a well-used conference phone that has finally stopped working. Well, you might be ready for a small business conference phone that has high quality, professional sound but is still affordable.

Choose the Aura Professional[™]

It is full-duplex, which allows for simultaneous two way conversations

•Clear, natural sound made possible by wide band acoustic echo cancellation and dynamic noise suppression, as well as phone line echo suppression ·It comes with six microphones, four are internal and two external. With automatic, intelligent microphone mixing built in they can hear you well too

- •You can store twenty numbers in the phone book, and speed dial twenty groups
- •The 3 line LCD displays caller ID
- •The 5 Watt speaker generates volume up to 90dB

This Conferencing Phone Has All You Need

This six (6) microphone conference phone comes with all you need for clear, full-duplex conversations. It automatically adjusts the phone circuitry so you can use it anywhere in the world. Everything you need to sound professional, without the high price tag!
