

IRONKEY™ WORKSPACE W200

DEPLOY AN AFFORDABLE MOBILE WORKSPACE PC ON A STICK™ SOLUTION

Balancing the demands of growing workforces with the restrictions of tight budgets can make it difficult to properly equip employees, contractors, field personnel and teleworkers with a mobile computing environment you can trust. Now there's IronKey Workspace W200 PC on a Stick drives for Windows To Go. Offering an ultra-affordable alternative to a laptop with a savings savings of up to 95%, these IronKey drives give mobile workers a full Windows desktop image, including the ability to run all applications directly from the USB device or safely access Office 365, Citrix, VPN or other SaaS clients from an IT-managed environment.

MOBILIZE ACROSS THE ENTERPRISE

With IronKey Workspace W200 drives, mobile workers run a complete **Windows 10 or Windows 8.1 Enterprise** workspace from a USB 3.0 flash drive on any compatible PC, tablet or Mac. **Microsoft-certified for Windows To Go**, IronKey Workspace W200 drives keep the integrity of your corporate workspace intact across a variety of use cases and scenarios.

- **Contractors.** Affordably provide contractors with an IronKey Workspace drive to use on their own PC with IT knowing there is complete data separation and contractors are using IT-managed apps and OS.
- **Telecommuters and VDI.** Employees who work on the road or at home can safely engage with your VDI, VPN and SaaS clients. Keep your systems isolated from key loggers or malware that may live on an IT-unmanaged PC.
- **Bring Your Own Device (BYOD).** Confidently embrace BYOD by giving employees access to the enterprise network while allowing them to stay productive from a personal computing device of their choice.
- **Shared PCs.** When equipped with W200 drives, shift workers and others who share PCs can always have their desktops available if each carries their own workspace device, no matter where they work.
- **Disaster Recovery / Business Continuity.** Quickly and easily deploy corporate imaged Windows desktop environments so personnel can work from anywhere. Ensure critical functions remain operable even if headquarters facilities are closed or inaccessible.
- **Lengthen Life of PC Assets.** Extend the useful life of older PCs by running Windows 10 or 8.1 from a fast SSD workspace.
- **Selective Deployment of Windows 10 or 8.1.** Quickly and easily test your new Windows environment before deploying it to all employees.
- **Mergers and Acquisitions.** Ease IT strain as you migrate users to new systems providing access only to the information needed to do their job. Employees can retain their original work laptop and readily access the new corporate system through the Windows To Go device; fully integrating and completing the transition for groups of users when it's convenient.
- **Purpose-Built Application.** Organizations can enable users to run a single application in a locked down environment from any PC or Mac using Windows To Go with application auto-launch to create a secure, portable solution.

WINDOWS TO GO CERTIFIED

Depend on the Microsoft-certified Windows To Go solution that delivers a true Windows 10 or 8.1 desktop embedded on a trusted IronKey USB flash drive.

BENEFITS

Affordably deliver a full Windows desktop that boots from USB and uses the available host system resources.

Rely on IronKey's portable desktop expertise and proven dependability in a sleek, rugged new chassis.

Equip users to work anywhere using your IT-managed corporate desktop image.

Protect portable desktops with full disk encryption and password authentication leveraging Microsoft BitLocker or other third-party software encryption technology.

Completely bypass the host computer and any local viruses or loggers for a clean SaaS platform.

Keep workers productive by deploying IronKey USB mobile workspaces that are provisioned and managed by IT.

Efficiently deploy across the enterprise with optional mass provisioning.

IRONKEY™ WORKSPACE W200

MICROSOFT-CERTIFIED IN A RUGGED NEW FORM FACTOR

Not every mobile Windows solution is created equal – particularly when budget is a key concern. That’s why we developed IronKey Workspace W200 drives. Even with their affordable price point, the rugged, lightweight W200 drives are fully certified by Microsoft for Windows To Go. And with their key components securely sealed in protective resin, IronKey Workspace W200 drives are built to withstand water, dust and shocks and have passed stringent military test standards. It’s just what you’d expect from IronKey’s renowned leadership and expertise in providing complete mobile workspaces and hardened, reliable USB flash drives.

PROTECT DATA AND WORKSPACES, ALWAYS

IronKey Workspace W200 drives put you in control of your company’s mobile Windows To Go desktops with password protection capabilities and up to 256-bit AES full disk encryption leveraging Microsoft BitLocker technology. And with IronKey Workspace devices, data and applications are automatically protected the moment users remove flash drives from their host PCs. IronKey has built its products with a security-first mentality that protects against malware, physical tampering and advanced threats such as BadUSB.

ENSURE ADOPTION WITH AN EASY USER EXPERIENCE

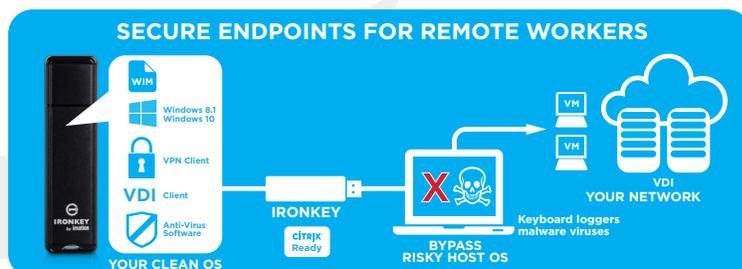

With the IronKey Workspace W200, your employees will gain easy, intuitive access to a complete Windows 10 or Windows 8.1 desktop. They can make full use of the host system’s hardware and resources such as printers and network connections. Users can also set up their workspace device with the IronKey Startup Assistant to automatically configure the boot order of compatible host computers, ensuring the system will boot first from their Workspace drive.

DEPLOY DRIVES QUICKLY AND EFFICIENTLY

With IronKey’s optional mass provisioning tool and scripting capabilities, which enable organizations to leverage Batch and PowerShell script samples, you can quickly mount a large scale deployment of W200 mobile workspace devices to keep up with the growth of your mobile workforce, or to prepare for potential “lights out” events that might disrupt operations.

AN AFFORDABLE ENTRY TO THE IRONKEY WORKSPACE FAMILY

IronKey Workspace W200 drives offer an affordable and easy entry into the full range of IronKey Workspace solutions, which offers additional features such as military-grade hardware encryption, FIPS 140-2 Level 3 certification, strong user authentication, on-premises or cloud-based centralized management, and support for CAC/PIV smart cards.

TECHNICAL SPECS

CAPACITIES

32GB, 64GB, 128GB

PERFORMANCE

Max Read: 310 MB/second
Max Write: 159 MB/second

HARDWARE

USB 3.0 SuperSpeed, Dust-resistant, Ruggedized

WATERPROOF AND SHOCKPROOF

MIL-STD-810G

SECURITY FEATURES

128-bit or 256-bit AES BitLocker-based full disk encryption

DIMENSIONS

72.07mm x 19.11mm x 8.53 mm

WEIGHT

0.56 oz (15.8 grams)

DEPLOYMENT TOOLS
