

EVO 40 Cart™

Charge, store, secure
and transport up to
40 Tablet devices

Efficient charging. The EVO 40 Cart is capable of charging up to 40 Tablet devices simultaneously.

Compatible.¹ The Carry Baskets are designed to accommodate almost any Tablet device.

Secure! After a day of use, lock the tilting storage compartments and attach the heavy duty anchor kit for securing the Cart whilst it's not in use.

Portable. Equipped with eight removable 5 slot Carry Baskets, making mobile device deployments easier.

Lifetime warranty. LocknCharge products are built to last the distance.²

Style meets functionality for better work flow. The EVO 40 Cart features two tilting storage compartments, so that iPad devices can be accessed faster and by more users.

lockncharge

It just makes life easier.

Carry Baskets give users the flexibility to deploy Tablet devices with ease. No more students waiting in line for devices - speed up deployment and start using devices faster.

Mobile syncing (optional). Think you may need syncing functionality in the future? Don't buy a new Cart... purchase the hand held iQ 16 Sync Charge Box which allows you to carry the unit where syncing is required (sold separately).

Safe, efficient and a future proofed power management system for charging 40 devices at once. How? ECO Safe Charge™ can handle the power requirements of almost any device by staging the availability of power to each bank of devices.

The large device storage area means that Tablet devices can be accessed with ease and by more users at once.

Cable management. The Tablet devices' power packs are store under the lockable top lid in a separate storage compartment.

Two tilting storage compartments are located on opposite ends of the Cart where your Tablet devices are securing stored for charging and transportation.

Highly Secure. Two-point locking system to keep your valuable devices safe.
