

15.6" Revolution Checkpoint-Friendly Briefcase

TTL416US

Overview

The Targus 15.6" Revolution Checkpoint-Friendly Briefcase has a smart zip-down workstation with dedicated compartments for all of your gadgets and gear, plus a tablet pocket with plush scratch-resistant lining. This Revolution case also makes it easier to zip through airport security with its patented checkpoint-friendly design, as it stays in the case for clear X-ray scanning.

Constructed of a durable all-nylon exterior, this case includes comfortable contour-molded padded handles and an ergonomic, contoured shoulder strap. The pass-through trolley strap makes it easy to stack this case on top of rolling luggage for transport. With its extensive features, the Targus 15.6" Revolution Checkpoint-Friendly Briefcase is the perfect companion for any on-the-go professional.

Features

- Designed to fit a range of laptops with screens up to 15.6" in size; including models with an extended battery.
- The traditional top loading case allows its owner to effortlessly access their laptop through the semi-opened compartment at the top of the case without exposing the contents of the bag.
- Designed to fit laptops up to 15.6"
- Exterior constructed of Nylon; front panel constructed with 2550D Military Grade Ballistic nylon; textured metal zipper pulls with differentiated rubberized TSA pulls
- Dedicated iPad and tablet pocket and file section, smart zip-down workstation includes business card holder, dedicated flash drives compartments and SD card pouch, versatile storage pouches, pen loops, and removable mesh pouch; Checkpoint Friendly; contour-molded padded handles; ergonomic, contoured Equalizer II shoulder strap with flexible, shock absorbent neoprene pad with non-slip finish; luggage trolley strap
