

SIP Ceiling Tile Drop-In Speaker

Brand New Design

Now available from CyberData is the newest option for installing the CyberData SIP Speaker! This new design combines the market leader in IP Speakers--the SIP Speakers--with the latest design in speaker mounts. It's streamlined and easy to install, with a 1' x 2' "drop-in" design.

The SIP Ceiling Tile Drop-In SIP Speaker is a Power-over-Ethernet (PoE 802.3af/802/3at) and Voice-over-IP (VoIP) public address loudspeaker that easily connects into existing local area networks with a single CAT5 cable connection. The speaker is compatible with most SIP-based IP PBX. In a non-SIP environment, the speaker is capable of playing audio from a multicast source.
