

Adjustable Ergonomic Laptop Cooling Table with Fan

.....

Keep your laptop cool while creating a comfortable workspace with the flexibility to sit or stand

Overview:

Aluratek's Adjustable Ergonomic Laptop Cooling Table with Fan is a great solution to cool your laptop while providing a comfortable customizable working surface. Extend the life and functionality of your laptop by providing a constant even flow of cool air to keep your system from overheating.

The cooling table supports MacBook Pro, MacBook Air, Chromebook, Ultrabook, netbooks and all laptops up to 17 inches as well as tablets and smartphones. Connect the cooling table to your laptop with the attached USB cable. The Adjustable Ergonomic Cooling Table is USB bus powered with low power consumption so no need for an external power adapter. The USB cable tucks neatly underneath the table for easy portability.

The portable cooling table is designed to be slim and lightweight while keeping its durability. The surface features tilt control and adjustable height with auto locking legs so you can create an ergonomic work station whether you're at home, school, or work.

Features:

- Create a comfortable ergonomic workspace wherever you are with the flexibility to sit or stand
- Adjust the height from 9.4 - 12.6 inches - leg joints auto lock in place and are released by the press of a button
- Tilt control up to 30 degrees to create an ideal viewing and ergonomic typing angle
- Collapsible for convenient storage - designed to be both thin and lightweight and ultra portable
- Sturdy aluminum alloy construction - can hold up to 88 lbs.
- Supports all laptops up to 17 inches
- Attached USB cable - tucks neatly underneath for easy cable management
- Built-in cooling fan creates continuous and evenly dispersed flow of cool air beneath your laptop - spins quietly at 1900 RPM
- USB bus powered - no external power adapter required
- Plug & Play installation
- Limited 1 Year Warranty

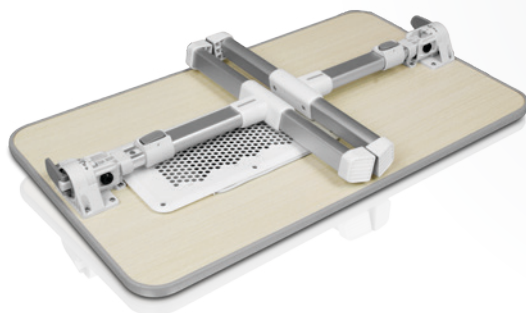

Tilt Control

The table surface can be easily adjusted up to 30 degrees to create an ideal viewing and ergonomic typing angle. Large clamps lock in place to keep the table surface firm. The table can hold up to 88 pounds (40 kg).

Adjustable Height

Create a comfortable workspace wherever you are with the flexibility to sit or stand. Customize the height from 9.4 to 12.6 inches. The leg joints auto lock in place and are released by the press of a button.

Portable Design

Collapsible to only 2 inches in width and weighing only 2 pounds, the cooling table is designed to be both thin and lightweight, making it easy to take with you on the go. The USB cable tucks neatly underneath for easy cable management. The sturdy aluminum alloy construction of the table allows for a comfortable working surface.

Built-In Cooling Fan

The cooling table is equipped with one large built-in ultra-quiet fan to push out a large amount of cool air to quickly dissipate heat that is generated by your laptop. The fan produces very little noise while spinning at 1900 RPM.
