

The rising expectations around the power of digital learning aren't always matched by rising budgets. This means IT has to find a way to connect students, schools, and communities with a robust, reliable learning platform that can grow with demand.

The Lenovo N22 Chromebook lets decision-makers focus on learning first, technology second. Chrome education apps are already revolutionizing the way teaching and learning are delivered and managed. Lenovo reliability ensures you can invest and innovate with confidence, boldly mixing technology with the basics of good instruction.

N22 Chromebook

WORRY-FREE K-12 MOBILITY

Stretch your digital learning dollars with confidence.

MAKE LEARNING HAPPEN EVERYWHERE

The Lenovo™ N22 Chromebook™ gives students access to an expansive ecosystem of education applications and resources. It's all backed by a durable design and feature set that keeps students connected and collaborating without breaking your IT budget.

The Chrome OS™ is quickly becoming the platform of choice for educators and administrators, thanks to an easy, intuitive interface and seamless back-end manageability. It's a powerful combination of diverse tools and a unified IT administration framework helping schools and districts deliver high-quality digital learning for less.

The Lenovo N22 Chromebook multiplies an already powerful learning advantage with a durable, student-focused design centered around a feature set inspired by the lessons learned in classrooms from teacher and student interactions. Ultimately, it results in more learning, in more places, for fewer dollars, which is why Lenovo is the world's No. 1 PC education technology provider.

KEY FEATURES OF THE N22 CHROMEBOOK

- Intel® Celeron® processor and up to 4GB RAM and 16GB SSD storage for keeping pace with the demands of the latest education apps and tools
- Optimized for easy portability, with a lightweight 2.8 lb. design and easy grip surface
- Rotatable camera with integrated mic and speakers for high-quality distance collaboration and learning
- Semi-rugged design to guard device against the daily hazards of student computing, in and out of the classroom

TOOLS AND SERVICES

Lenovo's end-to-end portfolio of services lets you maximize the reach and impact of critical IT investments, including your growing Chrome deployments.

Warranty Extensions extend the one year warranty up to three years of depot coverage and minimize unplanned maintenance expenses.

Accidental Damage Protection protects you beyond normal system warranty by providing coverage for accidental damage due to unintentional liquid spills, drops or bumps, or electrical surges.

Sealed Battery Warranty extends the standard one-year base battery coverage to three years.

Lenovo's Google Chrome White Glove Service offers your district and school customized solutions including enrollment of the Chrome OS into the Google Apps domain, wireless network configuration, asset tagging, etching, onsite deployment, and much more. Systems arrive pre-enrolled, activated in your Google console, and ready for students.

With the web-based **Chromebook Management Console** you can easily deploy and manage Chromebooks across your district. The console gives your team the ability to track assets, pre-install and block apps, create user groups and configure network access.
