VDM Series

vision display mounts

VDM Series Vision Display Mounts are designed to provide safe, reliable display mounting with the professional features that enable efficient installation. Available in a selection of styles and profiles, most models offer the mounting capability you need right out of the box with the included Proximity Series Mounting Plate. When additional capacity is required, pair the VDM Series Mount with a Proximity Series In-Wall Box for even more storage behind the display.

Features

- Proximity mounting plate included with most standard profile mounts to enable location of the AV system directly behind the display

- Post-install leveling mechanism enables quick micro-adjustment of horizontal plane of display

- Safety locking features keep the display securely mounted

- Certified to UL 2442 for safe, reliable installs
- Available in standard profile or low profile with kick stand for additional space between the mount and wall for ease of installation and servicing
- Accommodate VESA patterns up to 800mm

Motion Mounts

- Ideal for corner mount installs and single-person servicing
- Horizontal and tilt adjustment allow easier alignment of the display and better viewing angles for the end user
- Included wall plate cover provides aesthetic appeal when arm is extended and back is visible
- Cable management built into arms to help maintain signal integrity and aesthetics
- Arm extends up to 24" depending on model
- Individual models accommodate 800, 600, 400 and 200 VESA pattern sizes

Tilt Mounts

- Tool-free adjustment of tilt enables efficient installation and servicing
- Up to 15 degrees of limitless tilt enable optimal display viewing for end user
- Open wall plate design maximizes accessibility to connections and cable pass-through behind the display
- Standard profile models accommodate 800, 600, 400 and 200 VESA pattern sizes
- Low profile models accommodate 800, 600 and 400 VESA pattern sizes

Fixed Mounts

- Open wall plate design maximizes accessibility to connections and cable pass-through behind the display
- Standard profile models accommodate 800, 600 and 400 VESA pattern sizes
- Low profile models accommodate 800, 600 and 400 VESA pattern sizes
