

GPLHDPROK4

HDMI Over Powerline PRO Kit with 3 Additional Receivers

HDMI over Powerline up to 984ft

With IOGEAR's HDMI Over Powerline PRO Kit, transmit high-definition video and audio at astonishing distances up to 984ft over your home and Small Office Home Office's (SOHO) existing power outlets without having to incur the expense of rewiring. Enjoy content from your Blu-ray, set-top box or PC at resolutions up to 1080p. Simply plug in the transmitter into a power outlet and connect your HDMI source. Connect the HDMI receiver to a different power outlet and connect to your HDTV, monitor or projector.

Note: This product requires an electrical power environment where the electrical wiring is on the same power phase (100~240V AC grid).

How Does Powerline Work?

Powerline is an incredibly simple and straightforward means to set up devices that uses your environment's power cables instead of Ethernet, saving you on the hassles of running wires between rooms and the cost of professional A/V installation. This technology offers an alternative means of transmitting high-definition video and audio, installs easily and provides a reliable form of data transmission at ultra-long distances. Powerline technology takes advantage of the electrical wiring that already exists within your home or office to transmit data from one power outlet to another.

Flexible and Expandable Installation

Connect up to 4 total receivers to each HDMI Over Powerline PRO Kit and distribute HD video to multiple displays. The Powerline transmitter also includes an HDMI local display output for connecting a local display and for monitoring that digital signals are transmitted to all locations. The kit is plug-and-play, so setup is as simple as connecting your source device and display(s) and powering on the Powerline transmitter and receiver.

- Transmits High Definition Video and Audio up to 984ft (300m) over your home and SOHO's existing power outlets
- Supports High Definition Video resolutions of up to 1080p @ 60fps
- Local HDMI Out on Transmitter
- Transmitter can send HDMI signal to 4 receivers simultaneously
- Supports IR Remote signal transmission to control source device
- Plug-and-Play Solution
- HDMI 1.3 and HDCP Compliant

Requirements

- **Displays**
- HDTV, HD Display or HD Projector with HDMI Input
- **Media Source**
- 1 HDMI Output

Package Contents

- 1 x HDMI Over Powerline Pro Transmitter
- 4 x HDMI Over Powerline Pro Receivers
- 4 x IR Extension Cables
- 1 x IR Blast Cable
- 5 x Power Adapters
- 5 x HDMI Cables
- 4 x Quick Start Guides
- 4 x Warranty Cards
