

Lenovo™ ThinkPad X1 Carbon

CARBON-TOUGH YET ULTRALIGHT

Smaller, more versatile, and more powerful than ever—the innovative X1 Carbon just keeps getting better.

Featuring a carbon-fiber reinforced chassis, the X1 Carbon is as durable as its predecessor, and features a smaller footprint—making it the lightest, thinnest X1 Carbon. Yet it's power-packed with: Windows 10 Pro, 7th generation Intel® Core™ processors, lightning-fast Thunderbolt™ 3, and a 14" Quad-HD display. All that—plus our legendary ThinkPad heritage and support.

WHY YOU SHOULD BUY THE LENOVO™ THINKPAD X1 CARBON

Do More, With Less

Our smallest, thinnest business Ultrabook, this laptop is no featherweight—with more processing power, memory, and storage to keep you productive wherever you go.

Your Data, Safe and Secure

Quickly and securely log in with a smile or a touch, with Windows Hello. Use the touch fingerprint reader or the new infrared camera with advanced facial recognition technology.

Less Really Is More

The X1 Carbon is available with Microsoft Windows 10 Pro Signature Edition. No more trialware or unwanted apps. No more distractions—and easy provisioning for IT pros.

Prepare to Be Thunderstruck

Connect a cable from your USB-C port to an Intel® Thunderbolt™ 3-enabled device, and get four times the data and twice the video bandwidth of any other port type, while also supplying power.

Up & Running—Even If You're Not

Even when WiFi is out of range, the new X1 Carbon has LTE-A (4G) available—so you'll always have connectivity and access to all your data and apps in the cloud.

WHO NEEDS THE LENOVO™ THINKPAD X1 CARBON?

- 1** Progressive IT decision makers committed to delivering the most effective technology and long-term value for the business
- 2** Busy professionals, engaged with technology, who put a priority on performance and image
- 3** Highly mobile users requiring desktop-standard performance in a portable device, with always-on connectivity and great battery life to stay productive
