

Aura Video Mate™

HD Video & Audio Conferencing Speaker for Skype, Skype for Business, other VoIP apps

FACE TIME? SKYPE? BRING IT ON!

With 1080p HD video and a wide angle view of 120° your colleagues can join you for a small-group video conference call. The full duplex speaker with echo and noise cancellation means everyone will be heard well. And when the call is over, go back to listening to your music from iTunes. All from this powerful little device with the tiny footprint. Just plug in the USB and you're ready to go - no software needed.

Part Number:	CC-2020
UPC:	800807340039
MSRP:	\$399

Aura Video Mate™ FEATURES INCLUDE

- 01 1080p HD video for a clear, smooth image.
- 02 120° wide angle view camera so others can join you and be on camera.
- 03 True plug and play: just plug the USB into your PC/ Mac and you're ready to go. No software needed.
- 04 High efficiency intelligent DSP means that both microphone and speaker will produce excellent audio.
- 05 Voice algorithms mean clear sound and full duplex, so you can hear the other party while you're speaking.
- 06 Best of all, now your video conferences can be anywhere your laptop is.
