

## ASUS Chromebook C403

# Bigger 14" screen, ultratough design

ASUS Chromebook C403 combines big-screen productivity with classroom-ready toughness. Its large 14-inch display and ergonomic keyboard let you get things done in total comfort, and its rugged construction makes it a laptop you can rely on. With its easy-to-service modular design and long-lasting battery, ASUS Chromebook C403 is the smartest choice for learning!

#### Durability

### Ultimate rugged design

#### US military grade durability

Built to surpass demanding military-grade MIL-STD-810G durability standards, it's also torture-tested to pass stringent ASUS quality tests which is even more rigorous.

#### All-round protection

All four exterior edges and corners are protected by a tough rubber bumper, which reduces the impact of physical shocks.

#### Spill-resistant keyboard

The keyboard can cope with liquid spills of up to 6cc without harm.

#### Tamper-resistant keyboard

The gap between the edges of the keycaps and the keyboard surround is reduced to prevent anyone from prying the keys out.

#### Tough construction

We engineered C403 with rock-solid construction and reinforced the vulnerable parts — such as the corners, hinges and keyboard — to make sure it could resist the rigors of school life.

#### Productivity

### Designed for education

#### All-day learning

With up to 12 hours¹ battery life on a single charge, ASUS Chromebook C403 will last for a full day of classes and more.

#### Ergonomically designed keyboard

The long key travel on the keyboard — 2mm as opposed to the 1.5mm of some rivals — gives much better tactile feedback, for a more responsive and comfortable desktop-like typing experience.

#### Stress-free sharing

The 180° lay-flat hinge not only enables easier collaboration when you're in a group.

#### Good news for IT staff!

For easy on-site servicing, a modular construction is designed to allow key components to be replaced in minutes using simple tools so that IT administrator could focus on the exact issues and send the device to the students in a short time.

## Drop Tes

Multi-sided, 1.20m drop while powered on

#### Port Durability Test

5000 test cycles to ensure the durability of I/O ports

# Hinge Test

Subjects the laptop to 50,000 open-and-close cycles

#### Pressure Test

Endures 30kg force on lid and bottom without damage

	Warranty	Up to 3-year limited International hardware warranty. *different by country 1-year battery pack warranty

#### 3-Year international warranty

100% free of charge, with no hidden costs.

#### Pick Up & Return servic

Enjoy a door-to-door service including pick up, repair, and return.

#### Warranty extension

Extend service coverage to match the expected length of use time.

- Battery life test configuration: Intel® N4000, 468 RAM, HD non-touch display, 32GB eMMC. Battery tests conducted by ASUS in March 2019 using the Chromium OS power Load Test. Actual battery life may vary depending on product configuration, usage, operational conditions and power management
- Product specifications may differ from country to country. We recommend that you check with your local dealers for thespecifications of the product available in very country.
- Service and warranty coverage may vary depending on country and territory. We recommend that you check with your local retailers to confirm the option of the hardest confirmation.
