

ASUS Chromebook Tablet CT100

The toughest tablet for learning

Whatever your needs — at school, college, university or home — you can rely on this 9.7-inch tablet. With its super-rugged construction, compact design and long-lasting battery, ASUS Chromebook Tablet CT100 is the choice for a more intuitive learning experience: make videos to explore the world around you and build communication skills, experience augmented reality to bring learning to life in new ways, or collaborate with others next to you or miles away. Not only is it designed to shrug off everyday knocks and bumps, but its compact size, built-in pen holder and ergonomic design lets you learn and teach in a way that's as flexible, agile, and unique as you.

Tough protection, durable finish

Built to endure intensive use, whether it's an accidental drop or a science experiment gone awry. All four exterior edges and corners are protected by a tough rubber bumper¹, which reduces the impact of physical shocks to ensure critical components are always safe and sound. The tough micro-dimple textured finish means no more worries about scratches or fingerprints!

Ready for action

To protect your investment, ASUS Chromebook Tablet CT100 is built to surpass demanding military-grade MIL-STD-810G durability standards, and it's also stress-tested to pass stringent ASUS quality tests. The tests in the full suite include operation in harsh environmental conditions — including extremes of altitude, temperature and humidity — along with physical vibration and shock tests designed to mimic rough day-to-day handling.

Easy to carry

For effortless learning, indoors or outdoors, the 9.7-inch ASUS Chromebook Tablet CT100 is compact and portable. It weighs only 506g and the micro-dimple finish makes it easy to grip, so you'll want to bring it with you everywhere from your home to the classroom. Take it anywhere, explore everywhere!

Built-in pen holder

A pen is an indispensable accessory on a tablet designed for learning. That's why ASUS Chromebook Tablet CT100 includes a Wacom® EMR Pen for an effortless and natural writing experience. The handy built-in pen-holder keeps it safe and secure, too.

As beautiful as reality

The 9.7-inch QXGA (2048 x 1536) resolution display brings you all the beauty and excitement of the real world in stunning detail. ASUS Chromebook Tablet CT100 delivers a vivid and engaging viewing experience that encourages you to explore more.

Application Explore with Google Play

As well as featuring the best of Google out of the box, ASUS Chromebook gives you full access to the Google Play Store, so you can use all your favorite Android apps for work, play, or creativity.

Security Built-in security features

With its automatic updates and built-in anti-virus protection, ASUS Chromebook Flip C434 frees you from the worry of keeping your device safe, secure and always up to date.

Management Stay fast & Seamlessly

Thanks to the seamless cloud integration, you can easily access everything from any device. ASUS Chromebook opens up a whole new world of freedom!
