mUnite mPOS Solution Stands

Star Micronics is excited to announce the addition of the **mUnite solution stand series to its mCollection solution lineup**. In today's digital world, a mobile-friendly transaction process is more important than ever to retailers, restaurants, and more. In addition to the ability to process payments in a convenient and efficient way, having a modern aesthetic is vital to the success of brick-and-mortar retail and hospitality providers.

Star Micronics is proud to offer both function and style with its commercial grade mUnite POS solution stands, built to accompany the mCollection line of mPOS hardware. The durable steel stands are compatible with any tablet manufacturer, are easy to set up, and come in either black or white to match existing POS systems.

Features

- Supports Any Tablet or Touchscreen Computer
- Universal VESA Mounting
- Clean Cable Management
- Easy to Tilt for Customer Interactions
- Supports Two Screens
- Branding Opportunity

Take back your counter with the sleek mUnite stands and mCollection devices from Star. The mUnite stands maintain a clean design while hiding all the cables that keep your devices connected, routing power supplies under the counter to recapture your counter space.

Perfect for POS and self-service usage, match your business needs with the mCollection solution and mUnite tablet stand that is right for you. Accommodating the mC-Print3, mPOP, and TSP100III/TSP600II, the mUnite stands are also compatible with PromoPRNT, allowing you to power your transactions with custom, on-receipt promotions.

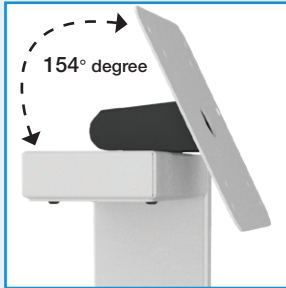

Built to enable businesses to enrich their marketing efforts, the mUnite stands feature a branding plate that is designed to highlight a brand logo or other marketing graphics. Additionally, to improve the customer experience, mUnite stands are easy to tilt for order review, signature capture, and more. Extend the mUnite experience with an optional customer-facing touch display.

Models
