

FULL MOTION SINGLE STUD MOUNTS

M600

The M600 full motion TV mount features a narrow wall plate intended for single-stud, brick and concrete installations. Its dual arm design allows you to extend, pan and swivel your TV to improve line-of-sight, and ensures it remains centered with the wall plate when pushed back to sit 2.2 inches from the wall. Four mounting holes situated on the outer corners of the wall plate are also provided for additional strength when mounting to brick or concrete. Featuring integrated cable management and clip-on wall plate covers, the M600 ensures a clean and professional TV setup.

- Product weight: 8.7 lb (4 kg)
- UPC: 800152720005

TECHNICAL ILLUSTRATIONS

IDEAL FOR CONCRETE

Capable of supporting up to 77 pounds, the M600 features four wide-set mounting holes to ensure a secure installation on both brick and concrete, and two vertically-aligned center holes to mount to a single wood stud.

IMPROVED VIEWING

Reaching 18.3" from the wall, the dual articulating arms allow for a wide range of viewing angles. Swivel your TV 51° to 90° in either direction, depending on screen size, and tilt it up to 14° forward to improve line-of-sight and 3° backward to reduce glare.

LOW PROFILE DESIGN

While maintaining alignment between the center of your TV and the wall plate, the M600's arms can be effortlessly pushed back to sit 2.2" from the wall.

CLEAN APPEARANCE

Use the provided cable management clips to conveniently route your cables, ensuring your viewing area remains clutter-free. Plastic wall plate covers are also included to hide any sign of installation.

EASY INSTALLATION

The M600 comes with a paper drill template to ensure a quick and accurate installation, as well as a labeled hardware bag with all the lag bolts, anchors, washers and spacers you'll need to safely secure your TV.
