deskside shredder features

solid-steel cutting shafts

High-grade, hardened steel cutting shafts are milled in Germany. Lifetime warranty on cutting wheels and shafts.

safety flap

Safety flap in the feed opening is an additional safety element to keep fingers, ties, or other objects away from the cutting shafts.

environmentally friendly bin

Durable, lightweight shred bins can be used with or without disposable bags.

easy switch

Multifunction control element uses optical signals to indicate operational status and functions as an emergency stop switch.

lead-free soldering

Only lead-free soldering is used in the production of our electrical components.
