#### Product Overview:

The Listen EVERYWHERE LW-200P-12 is capable of broadcasting 12 channels of audio to audiences of up to 1000 users. Connect to your existing Wi-Fi network and stream low latency audio directly to guests' devices using the free mobile app, or by providing Wi-Fi Audio Receivers at your venue to meet ADA compliance. Cloud-based management allows for simple management of the server and listening devices, including supporting custom welcome message videos or logos, sliding banners, and more, all providing another point of contact with your clients and customers. Experience great quality audio and industry leading low latency audio at your venue with a 12 channel Wi-Fi Audio Server.

The LW-200P-12 is an excellent option for multi-screen and assistive listening environments, including conference centers, sports bars, houses of worship, interpretation and hospitality.

\*Custom solutions available upon request to accommodate more channels/users, email [sales@listentech.com](mailto:sales@listentech.com) for information.
