ASUS X409

Experience the power of an everyday classic

One of the world's smallest all-rounder 14-inch laptops

FOR YOUNGER CROWD   14"

NanoEdge Display	Intel® Core™ i7 Processor	Intel Optane Memory	Discrete Graphic	
Dual Storage	Fingerprint Sensor	USB Type-C		

Fast and efficient

ASUS X409 ensure everyday tasks are handled with ease. They are powered by up to 10th Generation Intel Core i7 processors with NVIDIA GeForce MX250 discrete graphics. The dual storage design features up to a 512GB SSD and 1TB HDD, with optional Intel Optane™ memory technology.

Empower your dynamic lifestyle!

With an overall weight of just 1.65kg*, the extremely portable ASUS X409 is the lightweight laptop that keeps up with your fast-paced lifestyle. It looks good, too, with its Transparent Silver or Slate Grey finish.

Reinforced chassis for your durability

X409 feature the metal brace underneath the keyboard that provides a stable platform for a much more comfortable typing and touchpad experience. Besides the structural rigidity, perpendicular braces along the edge of the chassis work like side impact protection beams in automobiles to protect the hinge joint and internal components. The sides of the lid are reinforced and work like side-impact protection beams in automobiles.

EAR HDD protection

The HDD features E A R™ HDD shock dampening protection is designed to protect your data from physical impact. Laptop HDDs are generally more susceptible to physical damage compared to SSDs. This active hard-drive protection feature automatically detects shock and vibration across all three axes to effectively reduce the chances of HDD damage, so you can work without worry, even in a moving vehicle.

Get a wider view of the world

The NanoEdge display gives ASUS X409 a vast screen area for an immersive viewing experience for work and play. Its wide-view FHD panel features an anti-glare coating to reduce unwanted distractions from irritating glare and reflections, so you can truly focus on what's in front of you.
6.5mm
thin bezel
