Visit copernicused.com/warranty for information about our new whiteboard replacement parts program.

Why Bamboo?

We're growing our line of bamboo products to include more easels and carts! These products are a more sustainable choice than metal models because they have a smaller carbon footprint. Bamboo is a renewable resource that grows quickly and sequesters carbon, unlike steel which produces carbon.

NEW Option available with 100% post-consumer plastic (BE1-RCY)

Giving Back

For every bamboo product purchased, Copernicus will make a donation to conserve natural panda habitat through the World Wildlife Fund.
