

## Up-Angle Cat6 Gigabit Molded UTP Ethernet Cable (RJ45 Right-Angle Up M to RJ45 M), Blue, 20 ft.

MODEL NUMBER: N204-020-BL-UP

Cat6 cable connects Gigabit Ethernet network components like routers, servers, and switches in high-density data centers.

### Features

#### Up-Angle Cat6 UTP Cable Connects Equipment in Data Centers and VoIP Networks

This Cat6 Ethernet cable is ideal for connecting network components, such as printers, computers, copiers, routers, servers, modems and switches, in high-density data centers. Designed for fast transmission and excellent signal quality, this RJ45 cable ensures data transfer speeds up to 1 Gbps throughout your Gigabit Ethernet or VoIP network.

#### Up-Angle RJ45 End Makes Connecting and Disconnecting Easier

One RJ45 connector is designed at a 90-degree up angle, which prevents excessive bending and reduces stress on the cable. This makes the space-saving cable easy to plug into patch panels, switches and other devices located in a confined area or behind a desk.

#### Color-Coded to Avoid Misidentification That Can Cause Costly Downtime

This long Ethernet cable features a blue PVC jacket and molded blue ends. The color-coding allows easy, fast identification in a crowded rack or workstation and helps prevent the cable from becoming inadvertently disconnected.
