

# HP Chromebook 11A G8 EE (9VZ08EA)

## Overview

### The Chromebook built for schools and designed for learning

Help students reach their potential with cloud-first<sup>[1]</sup> learning on the durable HP Chromebook 11A G8 EE that keeps pace with active student lifestyles while the fast-booting Chrome OS makes IT management easy.

### A Chromebook built to withstand students and school days

Give students a Chromebook that can survive a fall off a desk<sup>[2]</sup>, a splash from a soda<sup>[3]</sup> or a tugged power cord. It resists spills<sup>[3]</sup> and attempts to remove keys, has metal-reinforced corners, and is 122 cm<sup>[2]</sup> drop tested—higher than most desks.

### Engaging discussions

Show and share Android™ and G Suite apps in class on a lie-flat device. Bring distance learning closer and collaborate remotely in real-time with a webcam and HP Extended Range Wireless LAN.<sup>[7]</sup>

### Classroom-ready performance

Quickly stream and access textbooks, tests, and more with AMD processors<sup>[4]</sup> and the Chrome OS. Work continuously with long battery life and fast recharging. Easy to control and manage student interactions with HP Classroom Manager.<sup>[5]</sup>

<sup>[1]</sup> Internet access required and sold separately. Some apps may require purchase.

<sup>[2]</sup> 122 cm test on plywood and 76 cm test on concrete. Drop test is not a guarantee of future performance under these test conditions. Any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

<sup>[3]</sup> HP Total Test Process testing is not a guarantee of future performance under these test conditions. Any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

<sup>[4]</sup> Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed.

<sup>[5]</sup> Sold separately. Internet access required and sold separately.

[7] Based on internal testing vs. previous generation product with 802.11ac wireless LAN module.
