Mount your tablet as a display with the independent tall tablet display mount. Approx. 3" taller than the 7160-0761 display mount, this display holds many different devices and docks with the VESA 75mm hole pattern.

FEATURES

- Taller display bracket to help with visibility of screen
- Works best with tablet docks with downward facing ports (i.e. CF-33 tablet dock and cradle)
- Bracket can be tilted down 160 degrees to help with better access around the dock
- Multiple VESA 75mm mounting holes to get the right height for the install
- Great display bracket to use with Mongoose XLE Independent Display Bracket (Item no. [7110-1305](#))

WARRANTY: LIMITED LIFETIME

- A limited lifetime warranty is **against manufacturer defects, not normal wear and tear.**
