

Tritek Ergo Select Extended High Back Multi-Tilter, Standard Seat (7472-3)

Ergo Select... Choose the components and design the chair that is right for you.

- Create "The Perfect Chair".
- A comprehensive ergonomic seating solution featuring three sizes of seats and backs. Tritek Ergo Select provides more choices than typical task seating so chairs that fit the size, shape, tasks and working preferences of office individuals can be specified while maintaining a uniform look throughout the office.
- Designed to accommodate as many body sizes as possible by offering a choice of seat cushion sizes,

a choice of backrest sizes to suit an individual's tasks and a choice of mechanisms needed by the user to comfortably perform his or her tasks.

- 24 hour/multi-shift models are also available.

Dimensions: W25.5 x D25 x H44.5 IN.

ergonomic features:

Tension Adjustment

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

Chair Tilt Lock

Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position. (can be either single position or infinite style).

Seat Height

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

Back/Lumbar Height

Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

E

Seat Depth

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

Seat Angle Adjustment

F

Forward and/or rearward. Allows chair to tilt forward and/or rearward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

G

Back Angle

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

H

Arm Height

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

M

Waterfall Seat Edge

Reduces pressure at the back of the knee, contributing to good blood flow.

N

Properly Contoured Cushions

Support the body effectively, allowing you to sit longer without discomfort.

Width Adjustable Arms

Q

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular effort in neck and shoulders.

R

Top View

Arm Rotation

Rotate armcap to support your forearm in various positions. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

S

Center-Tilt Movement

Chair tilts from a pivot point under the center of the seat allowing you to rock. When your feet are well supported, blood flow is enhanced.

U

Soft Descent Pneumatic Lift

Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.

V

Lumbar Depth Adjustment

Increase or decrease curvature of the back to match the profile of your lower back. Enhances comfort and support in the lower lumbar area.
