

Say “hello” to a lean, mean, learning machine.

TOP MARKS FOR THE LENOVO 100e NOTEBOOK WITH WINDOWS 10.

The new Lenovo 100e Notebook is big on power, portability and potential, but light on the pocketbook, making it a win-win for any classroom. The Windows 10 platform breathes new life into learning thanks to its education-ready design and collaborative features, like a 720p front-facing webcam. Its familiar interface and premium security features keep setup and management simple and safety a top priority. As for the classroom—the possibilities are endless. With access to popular education apps like Minecraft Education Edition, students can connect and collaborate like never before. Combine all that with a powerful Quad Core Intel® Celeron® processor and up to 10 hours* of battery life, and you've got a Notebook that can do it all.

FEATURE FRIENDLY

Every feature on the 100e was designed with today's modern school in mind. Its 11.6" anti-glare screen makes it easy to see, search and study, while the 720p front-facing camera turns the classroom into an interactive learning environment. And with thousands of educational apps in the Microsoft App Store, students and teachers will always have a variety of learning tools at their fingertips.

ALWAYS ACCESSIBLE

An efficient educational device, the 100e is built to last. Its 10 hours* of battery life ensures students and teachers can go all day on one charge, while its USB Type-C connectivity makes it easy to connect in class or at home. And thanks to Windows 10 premium security features, your students' and teachers' devices, data and identities will always remain safe every time they sign on or off.

BUILT FOR BUMPS

In every learning environment there are bound to be a few bumps, drops, dings, dents and spills along the way, but the 100e Notebook is engineered to withstand it all. Thanks to its drop-resistant design, spill-proof keyboard and reinforced ports, the 100e can handle the rigors of any classroom, locker or hallway in its path.

*Based on testing with MobileMark 2014. Battery life varies significantly with settings, usage, and other factors.

Lenovo 100e
