

POLY STUDIO P5 KITS FOR TELEHEALTH

Poly Studio P5 Kits are a perfect solution for healthcare organizations looking to ensure a consistent, high-quality collaboration experience for patients, providers, and staff. Kits can be prescribed to patients and consulting providers to enhance the patient experience. Providers can now improve their “webside manner” using Poly Studio P5 solutions. Each kit includes a webcam and headset or personal speakerphone in one package that’s easy to set up.

- Everything you need in one box.
- Exceptional camera optics with brilliant colors and low-light compensation.
- Crisp audio and noise-canceling headset mics.
- Speakerphone wireless adaptor connects directly into webcam with up to 20 hours of speakerphone battery life.
- Detachable camera from mount allows patients to give physicians better visibility of treatment point.
- For IT, be assured everything is up to date and working properly for everyone, wherever they work, with Poly Lens.
