750VA 450W 230V Ultra-Compact Line-Interactive UPS - 6 C13 Outlets, 2 AUS/NZ Adapters, Desktop/Wall-Mount

MODEL NUMBER: AVRX750UA

Desktop UPS offers complete power protection for small network applications, including home offices, security systems and digital signage.

Features

750VA/450W/230V Battery Backup for Home and Office Workstations

The ultra-compact line-interactive AVRX750UA UPS system with AVR provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The 230V battery backup is ideal protection for desktop workstations and other essential business and small-network office equipment. This UPS system is also recommended for digital signage and home networking applications, such as Wi-Fi routers and modems, home offices, security systems and home theaters.

Reliable, Expandable Battery Backup Keeps You Operational Through Power Outages

Backup support allows you to work through short power failures and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but internal battery should keep a half load (225W) powered as long as 8.6 minutes and a full load (450W) up to 2.4 minutes. During normal operation, incoming utility power keeps the hot-swappable internal battery fully charged, so backup power will always be available.

6 C13 Outlets Protect Your Connected Components

Three C13 outlets provide battery backup, 320 joules of surge protection and voltage regulation for your computer, monitor and other crucial components. Three others provide only surge and voltage protection for equipment less vital, such as printers and scanners. Included outlet adapters convert two C13 outlets to 10A Australia/New Zealand-compatible outlets. Dual network data line jacks protect a wired peripheral from dangerous surges on a single dial-up or DSL connection.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage Conditions

AVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The AVRX750UA can correct brownouts as low as 159V and overvoltages as high as 282V back to nominal 230V power continuously, all while keeping the battery fully charged and ready to take over in case of power failure.

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform

Highlights

- Protects equipment during blackouts, brownouts, transient surges and line noise
- Keeps AC power running during outages to allow time for file saves and safe shutdown
- Maintains continuous 230V nominal output during brownouts and overvoltages
- 6 C13 outlets with 2 AUS/NZ adapters power and protect PCs and other equipment
- C14 inlet with detachable 1.5 m AUS input cord allows easy connection to AC outlet

Applications

- Protect your PC and other sensitive electronics against power surges, line noise, brownouts, overvoltages and blackouts
- Operate essential equipment during short-term power outages using battery backup power
- Shut down desktop PCs and other equipment without data loss during long-term power outages

Package Includes

- AVRX750UA 750VA 450W 230V Line-Interactive UPS with 6 Outlets
- (2) C13 to AUS/NZ outlet adapters, 30 cm
- USB-A to USB-B cable, 1.8 m
- Power cord with 10A AUS/NZ plug, 1.5 m
- Owner's manual

better and last longer.

Designed for High Efficiency to Help You Save Money and Protect the Environment

A >95% efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

HID-Compliant USB Port Allows for Automatic System Shutdowns

This USB-B port connects the AVRX750UA to a computer running Tripp Lite's free downloadable PowerAlert® software to enable safe unattended system shutdown in case of a prolonged power failure. USB cable is included.

Audible Alarm and Status LED Keep You Informed Around the Clock

The alarm sounds to indicate power failure and overloads. Two LEDs report on/off and overload/check battery status.

Versatile Installation Options Give You Plenty of Choices

The low-profile housing features mounting tabs on the bottom panel for installing the UPS system on any horizontal or vertical flat surface. The C14 inlet connects to a properly grounded AC wall outlet with a user-supplied power cord with country-specific plug. A detachable 1.5-meter power cord with 10A Australia/New Zealand input plug is included.

Specifications

OVERVIEW		
UPC Code	037332255471	
UPS Type	Line-Interactive	
INPUT		
Rated input current (Maximum Load)	10A	
Nominal Input Voltage(s) Supported	230V AC	
UPS Input Connection Type	AUS/NZ 10A; C14 inlet	
UPS Input Connection Description	Includes 1.5m detachable Australian input power cord	
Input Phase	Single-Phase	
ОИТРИТ		
Output Volt Amp Capacity (VA)	750	
Output Watt Capacity (Watts)	450	
Nominal Voltage Details	230V nominal output in battery mode	
Frequency Compatibility	50 / 60 Hz	
Frequency Compatibility Details	Automatic frequency selection	
Output Voltage Regulation (Line Mode)	+8%, -21%	
Output Voltage Regulation (Battery Mode)	+/- 5%	
Included Output Power Cables	Includes a set of 2 Australian outlet adapters	

UPS Output Receptacles (Surge Suppression Only)	3 UPS outlets, 3 surge-only outlets	
Output AC Waveform (AC Mode)	Sine wave	
Output AC Waveform (Battery Mode)	PWM sine wave	
Nominal Output Voltage(s) Supported	220V; 230V; 240V	
Output Receptacles	(6) C13	
Individually Controllable Load Banks	No	
BATTERY		
Battery Type	Valve Regulated Lead Acid (VRLA)	
Full Load Runtime (min.)	2.4 min. (450w)	
Half Load Runtime (min.)	8.6 min. (225w)	
Expandable Runtime	No	
DC System Voltage (VDC)	12	
Battery Access	Battery access door	
Internal UPS Replacement Battery Cartridge	Tripp Lite RBC51 (quantity 1) replacement battery	
Battery Replacement Description	Hot-swappable, user replaceable batteries	
VOLTAGE REGULATION		
Voltage Regulation Description	Automatic voltage regulation (AVR) maintains line power operation with an input voltage range of 159 to 282VAC	
Overvoltage Correction	Input voltages between 245 and 282 are reduced by 12%	
Undervoltage Correction	Input voltages between 159 and 205 are boosted by 14%	
USER INTERFACE, ALERTS & CON	ITROLS	
Switches	Combination switch controls on/off power status and self-test operation	
Audible Alarm	Audible alarm indicates power-failure and overload status	
LED Indicators	2 LEDs indicate power status and overload/check battery status	
SURGE / NOISE SUPPRESSION		
UPS AC Suppression Joule Rating	320	
UPS AC Suppression Response Time	Instantaneous	
UPS Dataline Suppression	1 line TEL/DSL (1 in / 1 out)	
EMI / RFI AC Noise Suppression	Yes	
PHYSICAL		
PHYSICAL		

Installation Form Factors Supported with Included Accessories	Tower; Ultra-compact desktop; Wallmount
Primary UPS Depth (mm)	178
Primary UPS Height (mm)	102
Primary UPS Width (mm)	305
Shipping Dimensions (hwd / in.)	5.40 x 9.80 x 14.50
Shipping Weight (kg)	6.75
UPS Housing Material	ABS
UPS Power Module Dimensions (hwd, in.)	4 x 12 x 7
UPS Power Module Weight (kg)	6.49
UPS Power Module Weight (lbs.)	14.3
ENVIRONMENTAL	
Operating Temperature Range	+32 to +104 degrees Fahrenheit / 0 to +40 degrees Celsius
Storage Temperature Range	+5 to +122 degrees Fahrenheit / -15 to +50 degrees Celsius
Relative Humidity	0 to 95%, non-condensing
AC Mode BTU / Hr. (Full Load)	20
(/
