

# Verbatim Charging Stand for use with Xbox Controller Rechargeable Battery Packs

## Features & Benefits

- Charge up to four rechargeable battery packs simultaneously
- Includes four 800mAh rechargeable battery packs to easily convert controllers from battery-powered to rechargeable
- Easily see if each battery pack is ready with individual LED charging status indicators
- Short-circuit protection inside charger with overload protection inside each individual battery pack
- Compact, portable design with rubber feet to avoid slipping
- Included charging cable allows for flexibility in setup
- 1-year limited warranty

Power up your Xbox controller rechargeable battery packs quickly and easily with the Verbatim Charging Stand.

Charge up to four battery packs simultaneously so you can get back to your game faster while LED charging status indicators let you easily see the charging level of each battery pack.

This charging stand comes complete with four rechargeable battery packs, letting you easily convert your controllers from battery-powered to rechargeable.

This stand keeps your gear safe with short-circuit protection inside the charger and overload protection inside each battery pack. And a compact, portable design and included charging cable means this stand easily fits into your existing setup.

## Technical Information
