

UC-M50-Z-UPGRD

Crestron Flex Medium Room Upgrade Solution with Zoom Rooms™ Software

- *Upgrades a single Crestron Flex tabletop conference device to a complete video conference system*
- *Native Zoom Rooms™ software provides a consistent, simple user experience with one-touch meeting joins*
- *Complete kit contains a collaboration camera, a UC bracket assembly and cables*
- *Easy to specify and install — no custom design, programming, or software installation required*
- *Network management and provisioning and system alerts through the XiO Cloud® service*
- *Premium-level support with Crestron Flex Care (optional)*
- *Enterprise-grade security - connects and communicates securely over any enterprise or SMB network*
- *Supports single or dual video displays*

The UC-M50-Z-UPGRD solution provides all of the necessary components to upgrade a deployed Crestron Flex tabletop conference device (CCS-UC-1, CCS-UC-1-AV, or CCS-UC-1-AV-PLUS) to a complete video conference system for use with Zoom Rooms software. It supports single or dual video displays¹ and features a collaboration camera, a UC Bracket Assembly and cables.

Native Zoom Rooms™ Software Experience

The UC-M50-Z-UPGRD system features Zoom Rooms conferencing software that enables audio and video connectivity for easy collaboration and content sharing.

Simplified Deployment

The UC Bracket Assembly (UC-BRKT-200-S-Z-ASSY) provides preassembled components on one ready-to-mount bracket to simplify installation. The assembly can be mounted on a wall, or it can be attached to the rear of the display device.

High-Definition Video Conferencing

The included collaboration camera (CCS-CAM-USB-F-400) features an ultra wide-angle 150° diagonal field of view to capture an entire conference room in Full HD 1080p video resolution. High precision aspherical optics, 12 MP CMOS sensor, and advanced video processing ensure a clear video image free from light or noise artifacts. Genius Framing digital autozoom detects the people in the room and frames them for an optimal view.

Enterprise-Grade Security

Crestron Flex is an enterprise-grade solution that is ideally equipped for mass deployment throughout any sized corporate, university, medical, military, or government facility.

Easy Provisioning and Device Management

The XiO Cloud service² is an IoT cloud based provisioning service that enables installers and IT managers to deploy and manage thousands of devices easily. The XiO Cloud service allows for system alerts, network management and provisioning, and the pairing of a control device to the system's UC Engine. System updates are controlled by Windows® software update.

Visit www.crestron.com/xiocloud for additional information.

Premium-Level Support

Crestron Flex Care is an optional subscription service that automatically renews annually, providing 24/7 live remote technical support, an extended five year warranty on Crestron® hardware, expedited advance replacements, and a discounted rate for on-site support.

Visit www.crestron.com/flexcare for additional information.
