VESA Flexible

This secure Medical Floor Stand with VESA plate is versatile and effortlessly mobile. It's height adjustable to meet various requirements, and includes a handy basket and keyboard tray to hold medical equipment, folders, or anything you need on-the-go. This sturdy stand features a handle for navigation and moves smoothly on five casters. When you've arrived at your destination, simply lock the casters to keep your stand in place. With room for various CTA components, this stand is the perfect choice for hospital and clinic use.
