

VIVE FOCUS 3

The new era of business VR.

Meet the all-in-one VIVE Focus 3. Delivering best-in-class graphics, ergonomic comfort, and advanced business applications that will transform the way you work.

Get all-in-one VR with sharp resolution, powerful processing, and world-scale tracking right out of the box. No tethered PC, base stations, or sensors required.

5K RESOLUTION

All-in-One VR that goes all out for graphics quality.

Visualize your creativity in crystal-clear brilliance. See it and feel it before putting ideas into motion—no more costly and time-consuming do-overs.

Always sharp, **5K resolution**

See more naturally: up to **120° wide field of view**

Smoothest visual: **90Hz refresh rate**

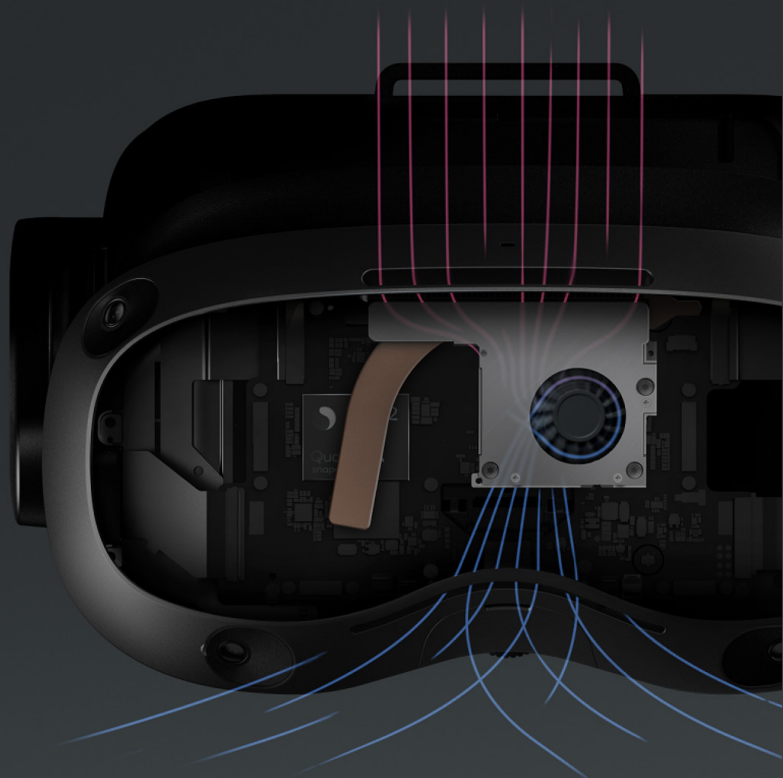

Your viewing sweet spot.

Ultra-wide range of IPD (inter-pupillary distance) adjustment (57mm-72mm) provides viewing comfort. Easily find your sweet spot with the dial design while wearing the headset.

*IPD - the distance measured in mm between the centers of eye pupils.

Stay cool.

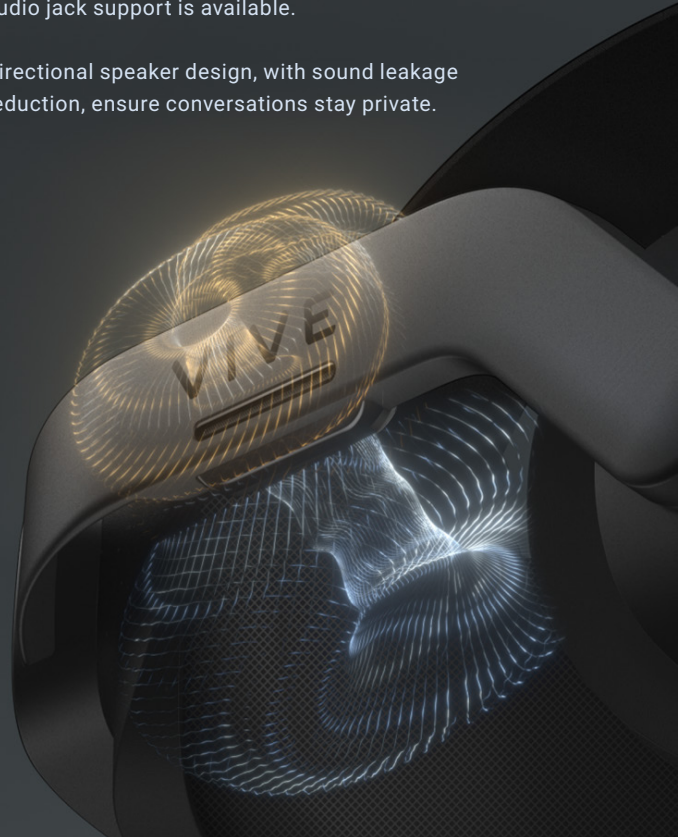

Active cooling mechanism and thermal-optimized battery maintain device temperature at ideal levels. The result is enhanced performance and longer immersive sessions.

Immersive 3D spatial audio.

Open-back, dual-driver speakers deliver 3D spatial sound. For total immersion, high-resolution 3.5mm audio jack support is available.

Directional speaker design, with sound leakage reduction, ensure conversations stay private.

In and out of VR in seconds.

Made for high-traffic showrooms and events. Easily take off and put on the headset thanks to the patented Quick-Release Button.

Suits a wide range of face shapes, vision types and even fits over glasses. No fuss. Just pure comfort and convenience.

Long-lasting VR performance.

Power-efficient designs enable up to 2 hours of continuous use. Quickly charge up to 50% power in just 30 minutes whenever a boost is needed. The swappable battery design allows easy charging for all-day VR use.

*All battery claim results will vary. Battery life and charge cycles vary by use.

Magnetic Face and Rear Cushions.

Quickly attach, detach, and clean headset cushions. Personal cushions provide better hygiene when sharing the device.

Balanced comfort for long sessions.

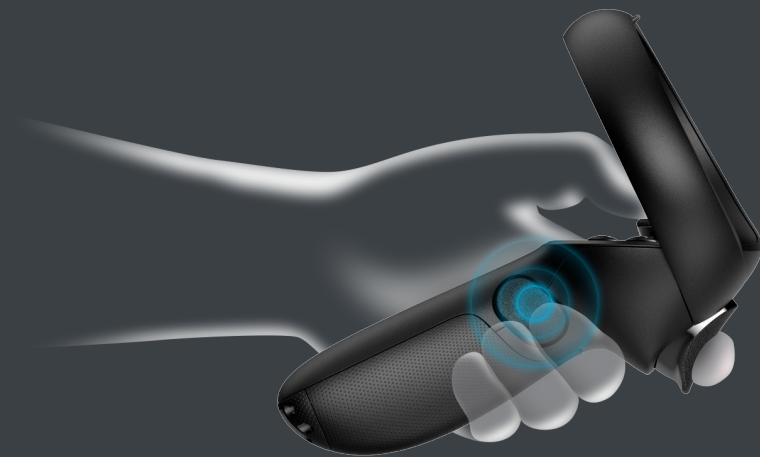

Curves and contours provide balanced counterweight between the eye-piece and battery. Comfort for longer sessions, especially training simulations that require bigger movements.

A natural fit.

Balanced to fit comfortably in your hands, the VIVE Focus Controller is crafted for easy input and navigation during long VR sessions. Six degrees of freedom (6DoF) support, ergonomically placed buttons and triggers, and touch sensors further deliver intuitive and precision controls.

With up to 15 hours of battery life and USB charging support, it has the power endurance for any business application.

VIVE Business Streaming

Go beyond the graphics capability of all-in-one VR headsets. Connect to a PC to render more complex scenes and visual-intensive applications for cutting-edge VR performance.

VIVE Business Warranty & Services

Enterprise-grade support and services designed to protect your investment

Keep your business running smoothly with VIVE Business Warranty & Services. The package includes a limited two-year, commercial-use warranty, and support and services. Features like next business day email response and expedited product repair or replacement minimize downtime.

Commercial use only**. Subject to Terms & Conditions.

VIVE Focus 3 Specs

Headset

Screen	Dual 2.88" LCD panels
Resolution	2448 x 2448 pixels per eye (4896 x 2448 pixels combined)
Refresh Rate	90Hz
FOV	120°
Audio	Dual microphones with echo cancellation 2x Dual driver with patented directional speaker design Privacy Mode Hi-Res Certified 3.5mm audio jack output
Input	Dual integrated microphones Headset button
Connections	2x USB 3.2 Gen-1 Type-C peripheral ports (External USB-C port supports USB OTG) Bluetooth 5.2 + BLE Wi-Fi 6
Sensors	4x Tracking cameras, G-sensor, Gyroscope, Proximity sensor
Ergonomics	Ergonomically curved battery module mounted in the rear as counterweight Magnetically-attached front gasket and rear padding with easy to clean PU leather trim 150mm-wide facial interface accomodates wide eyeglasses Eye comfort adjustment supporting IPD range of 57mm to 72mm

Battery	26.6Wh Battery – removeable & swappable Lightweight and quickly rechargeable with Lithium-Polymer Gel chemistry
Tracking	VIVE Inside-out Tracking Up to 7x7m play space recommended

Controllers

Sensors	Hall sensors on Trigger and Grip buttons Capacitive sensors on Trigger, Joystick, and Thumb-rest area G-Sensor, Gyroscope
Input	Ergonomic Grip button Analog Trigger button AB / XY buttons System / Menu buttons Joystick

Tracked Area Requirements

Standing / Seated	Both available
Room-scale	Up to 7m x 7m play area recommended Minimum play area is 1m x 1m (standing)

*The battery claims herein may vary based on feature and software configurations, app usage, and other additional factors. Actual results may vary.
