SQUIDS® 3193 TAPE MEASURE TETHERING KIT - 2LBS / 0.9KG

- TESTED & APPROVED – Approved to the ANSI/ISEA 121-2018 standard

- MAX TETHERING CAPACITY – Tether one standard 2lbs / 0.9kg tape measure

- KIT INCLUDES (click on each to learn more):

- Squids® 3770 Tape Measure Trap

- STANDARD FIT – Fits most standard tape measures from 1 35ft / 4.9m - 10.7m

- Squids® 3100F(x) Tool Lanyard Single Carabiner - 10lbs / 4.5kg

- CARABINER – Anodized aluminum alloy captive eye manual locking screwgate carabiner

- LOOP FOR TETHERING – Treaded loop end that grips the tool when attached

The Squids® 3193 Tape Measure Tethering Kit allows you to tether one standard 2lb / 0.9kg tape measure, making it easy to use your tape measure on the job while preventing dropped objects when working at heights.

WHAT'S INCLUDED

The kit includes a Squids® 3100F(x) Single Carabiner Tool Lanyard and a Squids® 3770 Tape Measure Trap.

STRAIGHTFORWARD INSTALLATION

Connection points for tool lanyards are not always readily available on tools, which can create a hazardous environment while working at heights. Learn how to tether your tools using the products included in the kit here. No tape and tool tails required for this convenient tape measure tethering kit! Just open up the hook-and-loop straps on the 3770 Tape Measure Trap. Place the tape measure inside of the trap, with the back of the tape measure facing the D-ring on the back of the trap.
