Custom Flex Desk Clamp Mount with Inductive Charging Case Kit

For iPad 7th/8th Gen 10.2-inch, iPad Pro 10.5-inch, iPad Air 3

Custom Flex Desk Clamp Mount with Inductive Charging Case Kit

This tablet mount and inductive case kit creates an innovative, rugged and wireless POS station. The inductive charging case is a game-changer for restaurants, retail, and more. To use, plug the base into a wall outlet. Next, plug the case into the iPad's charging port. The case's strong rear magnets snap to the mounting stand. When aligned properly, your iPad charges automatically via electromagnetic fields between the base and case. A built-in strap on the rear of the case lets users quickly switch for secure handheld use. This rubber case is splash-proof, drop-tested, and ready to protect your store's iPad from messes, rough handling, or other incidents. Its heavy-duty clamp base attaches to a desk or pole with no-slip rubber pads, tightening with a rotary grip handle. The durable metal arm features two 180-degree rotating joints, plus omnidirectional ball sockets at the base and headpiece, for virtually infinite positioning options. The head rotates to allow for tablet use in either portrait or landscape orientation. The case is compatible with iPad 7th and 8th Generation 10.2-inch, iPad Air 3, iPad Pro 10.5-inch.

Features:

- Wireless charging function
- Durable impact shielding
- Rugged rubber construction
- Water resistant
- Includes VESA 75 x 75 and 100 x 100-millimeter mounting plates
