

4XEM USB-C to HDMI Video Capture Card

4XEM Part- 4XUSBCHDMIVIDCAP

Introducing the 4XEM USB-C to HDMI Video Capture Card – your gateway to seamless video capturing and sharing like never before. Designed for utmost compatibility and convenience, this capture card boasts a USB 2.0 Type-C Male connection for hassle-free PC integration.

Equipped with a HDMI Female port, this capture card effortlessly handles a maximum input resolution of 4096 x 2160, ensuring your videos retain stunning clarity. With support for 8/10/12 bpc input bit-depth and an impressive maximum input transmission distance of 49 ft, you can capture moments without compromise.

Whether you're working on your desktop or laptop, this versatile capture card harmonizes perfectly with your system's capabilities. On your desktop, ensure a CPU of Intel Core i5-3400, a Nvidia GT630 GPU, and 4GB of RAM. On laptops, the requirements are met by an Intel Core i7-3537U CPU, Nvidia GT735M GPU, and 4GB of RAM.
