

Premium Security Swan Neck Furniture Stand with VESA Plate

ADD-PARASW

Features:

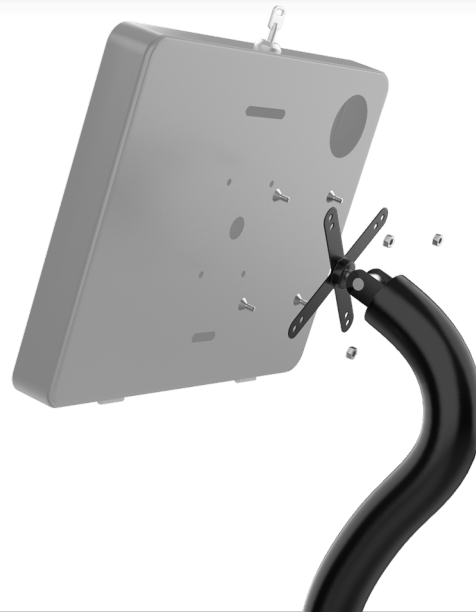

- Heavy-duty locking enclosure
- 75 x 75-millimeter and 100 x 100-millimeter VESA plate easily connects to any VESA-compatible mount
- VESA plate rotates 90-degrees for use in both landscape and portrait orientations
- Interior cable routing system allows neat storage of cables while in use
- Compatible CTA Digital's popular Paragon Enclosures and Universal Locking Enclosures.

Specifications:

- Dimensions: 14L x 11.3W x 44.3"H
- Weight: 9.6 lbs

Package includes:

- (1) Swan Neck Security Stand with VESA plate
- (1) Set Assembly Hardware

This versatile, sturdy swan neck stand provides a secure way to mount a tablet for home offices, hospitality, retail, medical offices and more. Use the sturdy, heavy steel base with all poles to create a useful floor stand. Need a desktop solution? Simply remove the middle and lower poles. A rubber pad at the bottom of the base prevents scratching to either floors or desktop. The top of the stand features an attractive swan neck curve. Attach any VESA-compatible device case, like CTA's popular Paragon Enclosure (not included), to the standard 75 x 75 or 100 x 100-millimeter mount for a strong, secure hold. The top rotates and locks in place for use in either portrait or landscape modes. Route all cables through the center post to create a safe, mess-free work space.

VESA Versatility

Efficient Cable Routing
