# Laptop Security Arm with Heavy Duty Base Stand For Laptops

## Laptop Security Arm with Heavy Duty Base Stand

This flexible, laptop stand lets you securely display your laptop virtually anywhere – on countertops, at your desk, on tabletops, or any workspace. With the hollow stand, you can invisibly route all the device’s cables directly through the stand itself, creating a clean, professional look. Its unique corner-grip design allows full access to your laptop’s ports, buttons, cameras, and headphone jack, for card reader compatibility. (\*Laptops shown are not included)

### Features:

- Unique edge-grip design holder allows access to all ports, and jacks on sides of the laptop
- Compatible with most laptops with a screen length of 17" max
- Works with laptops with a screen thickness up to .5 inches
- 360-degree swivel at base
- Clean cable routing through hollow stand neck
- Metal base with scratch and slip resistant rubber grips
- Optional steel security cable tethers stand to any permanent fixture

### Specifications:

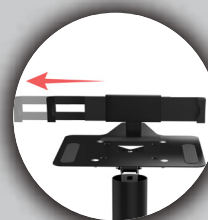

- Overall Dimensions: 14-1/4"H x 8-5/8"W x 8-1/4"D
- Base Diameter: 8-1/4"D
