

Eve Room

Indoor Air Quality Monitor

Enjoy a healthier home.

Care for your air.

Listing Title:

Eve Room - Indoor air quality sensor with Apple HomeKit technology

USPs:

- Temperature, humidity & air quality (VOC)
- Live a healthy life
- High-contrast display
- Wireless & rechargeable
- Bluetooth & Thread
- Highest data privacy

HIGHLIGHTS

- The key to keeping your home healthy: Eve Room measures volatile organic compound (VOC) concentration, temperature, and humidity levels in your home.
- Detect harmful VOC levels caused by everyday items, including furnishings, appliances, gadgets, toys & more.
- Track how activities such as cooking and cleaning cause indoor air quality to drop – enabling you to ventilate in good time.
- View the readings on the high-contrast e-ink display or your iPhone, and adopt healthy habits by following the history in the Eve app.
- Put Eve Room wherever you like thanks to its wireless connectivity and integrated rechargeable battery (6-week battery life, recharges via USB).
- Joins your Thread network automatically / supports Bluetooth and Thread.
- Get up and running in a flash with quick & easy installation and setup, and no need for a bridge or gateway.
- Apple HomeKit-enabled for outstanding ease of use and advanced security.
- 100% privacy: No Eve cloud, no registration, no tracking. Strictly local intelligence and direct communication without bridge or cloud dependency.

MARKETING TEXT

SHORT

Eve Room is your key to healthy living. The award-winning indoor air sensor with Apple HomeKit technology measures volatile organic compound (VOC) concentration, temperature, and humidity levels in your home. View the readings on the integrated display or on your iPhone, and adopt healthy habits by following the history in the Eve app.

MEDIUM

Keep your home's indoor air quality clean and healthy with Eve Room. The award-winning indoor air sensor with Apple HomeKit technology measures air quality (VOC), temperature, and humidity levels in your home. Detect harmful VOC levels caused by everyday items, and track when

indoor air quality drops. You can then ventilate in good time, and adopt healthy habits by following the history in the Eve app.

LONG

Keep your home's indoor air quality clean and healthy with Eve Room. The award-winning indoor air sensor with Apple HomeKit technology measures air quality (VOC), temperature, and humidity levels in your home. Detect harmful VOC levels caused by everyday items, and track when indoor air quality drops. You can then ventilate in good time, and adopt healthy habits by following the history in the Eve app.

Eve Room joins your Thread network automatically and is Apple HomeKit-enabled for outstanding ease of use with iPhone, iPad, and Apple Watch. Enjoy the freedom to place the wireless indoor air sensor wherever you like – you can recharge the accessory via USB, and control Eve Room directly without any need for a bridge. And the best thing about all Eve accessories is how they protect your privacy: Eve does not harvest your personal data and there is no Eve cloud, so your data won't get exposed.
