

CyberMed M Series

Power Over Ethernet (PoE) Medical Computers

PoE Enabled Medical PCs

The CyberMed M Series is an incredibly unique line of medical grade all-in-one computers that can be powered over ethernet, so there's no need for a traditional power outlet. Thank's to their flexible power options and VESA mount compatibility, these units can be mounted virtually anywhere.

Medical Grade Certified

Intel Core Processor

The CyberMed M series comes with a powerful quad core Intel processor and up to 8GB of RAM, with stunning integrated Intel HD graphics, packing a big punch in a compact design.

Antimicrobial*

The CyberMed M Series includes an antimicrobial housing to protect itself from harmful microbes.

IEC/UL 60601-1 Certified

These medical computers have been engineered to meet the stringent 60601-1 electrical and radiation safety standards required for near patient use.

IP65 Rated

The sealed front bezel is IP65 certified, so they will stand up to chemical disinfectants and makes it easy for medical professionals to clean.

*Antimicrobial technology protects the housing of the computer & tablet. Cybernet makes no direct or implied claims to protecting users or providing other health benefits.

Low Power Consumption Computers

The CyberMed M Series uses low power consumption components and fanless cooling technology to allow it to be powered over ethernet. This completely removes the need for AC power making this device much more versatile and allowing end users to install it nearly anywhere.

Great for Patient Infotainment

These medical grade computers are great for patient registration or to be mounted bedside as an infotainment device. Their small footprint and antimicrobial housing to protect itself from harmful microbes are key features that allow these devices to be used by patients without taking up too much space.

Built with Customization & Compatibility in Mind

- Windows 7, 8, 10, Windows IoT, and Linux
- Intel Quad Core Processor
- 1 x Full-Sized Mini PCI Express Slot
- 1 x Half-Sized Mini PCI Express Slot
- 1 x 128GB SSD up to 512GB
- 1 x DDR3L SO-DIMM (up to 8GB)
- 4 x USB 3.0 USB Ports, 1 x HDMI, 2 x LAN
- 1 x RS232 Serial Port (Expandable to 4 COM Ports)
- 5 Megapixel Webcam
- Optional Internal UPS Backup Battery
