Overview

Modern design for today's workstyles

With a new compact design, the HP ProBook 430 Laptop PC delivers commercial performance, security, and durability to professionals at growing companies who move from desk to meeting room to home.

A new design that fits modern workstyles

The compact, light, 16mm chassis with aluminum components is easy to carry from place to place. Enjoy an over 84-percent screen-to-body ratio and a quiet, responsive keyboard.

Power that lasts

Equipped with the latest Intel® processor^[2] and high-performance memory, the HP ProBook 430 drives performance with long battery life and high-speed solid-state drives.

Protected by HP Wolf Security

HP Wolf Pro Security Edition PCs interlace HP Sure Click Pro with HP Sure Sense Pro providing more in-depth coverage than the standard versions through a 1-year or 3-year user license with HP Support.^[4] This creates a powerful, single solution that doesn't require an IT-managed PC environment.

Features

Windows 11

Work anywhere without compromising on performance or security with Windows 11 powered by HP's collaboration and connectivity technology.

High performance, high portability

Help speed up demanding business applications with a quad-core 11th Gen Intel® Core™ processor, with breakthrough Intel® Iris® Xe graphics.^[2]

Security is your top priority

The HP Wolf Pro Security Edition provides preconfigured enterprise-level PC protection for small and medium sized businesses.^[1]

Preserve your privacy

Never wonder if someone is watching you with the added peace-of-mind that comes from the integrated HP Privacy Camera, with a physical shutter to protect from malicious surveillance.

Automatic recovery from firmware attacks

Firmware attacks can completely devastate your PC. Stay protected with HP's self-healing BIOS - HP Sure Start Gen6 automatically recovers the BIOS from malware, rootkits, or corruption.

HP Sure Sense

Malware is evolving rapidly and traditional antivirus can't always recognize new attacks. Protect your PC against never-before-seen attacks with HP Sure Sense, which uses deep learning AI to provide exceptional protection against advanced malware.
