Under-Desk CPU Mount

ADJUSTABLE HEIGHT AND WIDTH TO FIT A VARIETY
OF BRANDS & SIZES

Fully adjustable CPU tower desk mount allows you to raise your computer tower off of the floor to create more space on your desktop and protecting it from dirt, dust and spills. It also allows for maximum airflow, which prevents your CPU from overheating. Easily adjust the height and width of the mounting clamps to fit the exact size of your CPU.

- This holder can fit computer towers ranging in height from 11.8" to 21" and ranging in width from 3.5" to 8".

- Features a 360 degree swivel function to keep the cables and ports on the back of your CPU tower easily accessible.

- Install it under the desk or on a wall to save desktop space and keep an organized workspace.

FULLY ADJUSTABLE. Adjusts to fit the height and width of your computer tower.

DESIGN. Engineered to keep your CPU tower out of harms way.

EASY INSTALLATION. Assembles in minutes. All hardware included.
