Natural Weaving Frames

Quality you can count on

Day in and day out, our resources are tested to the toughest of standards to withstand whatever children can throw at them - sand, water and mud included! You can be confident our resources are up to the challenge of an early childhood environment and are safe for small hands.

Environmentally speaking

We are working hard to minimize our impact on the environment by reducing waste, single-use plastic and our carbon footprint, while increasing the use of recycled and sustainably-sourced materials.

Innovative design for all

Our team of experienced educationalists strive to create innovative, multisensory resources to engage, invite and delight. Innovation and a keen eye for detail go hand-in-hand to deliver an award-winning range loved by both practitioners and children.

Let's play together!

We are a small, friendly and flexible team and we love what we do! It isn't just children who learn best when they are having fun; we do too. And we especially enjoy learning from our customers, so if you have an idea, give us a call - we'd love to talk to you!

Mud Kitchen Process Stones

Ideal for use outside, these durable stones show a simple image of a cooking process on one side and a related word on the reverse. Ideal for introducing key vocabulary and sequencing activities, each set contains ten tactile process stones measuring 1½–2" high.

10-Frame Tray

Made from sustainably-sourced natural beech wood, this specially designed tray will help children develop an early understanding of counting, addition and subtraction. They can explore, learn and practise number bonds to 10 using real objects that attract their interest. Measures 15 x 6 x 1". Counters not included.

Product Info

Ref: YUS1081

Safe for: 18mths+

Packaging: Brown Box

Tactile Counting Stones

This robust set of counting stones displays number arrays from 1 to 10 using a pattern of indented circles to represent the relevant number. The stones are ideal for counting, number recognition, subitizing and number bonds, among other maths concepts. Made from a stone and resin mix, each set contains 20 stones (two sets of 1-10 stones) measuring approximately 3" in length.

Product Info

Ref: YUS1092

Safe for: 3+

Packaging: Brown Box

Two-Tone Counting Stones

This inviting set of 20 double-sided stones is ideal for counting, pattern making, number bonds and sorting. These durable counters, made from a stone and resin mix, can be used both indoors and outside, and in water and sand. They are ideal for use with 10-frame trays and sorting trays to support sequencing activities and an understanding of number arrays. Stones measure 1 3/4".

Product Info

Ref: YUS1093

Safe for: 2+

Packaging: Brown Box

1-10 Natural Number Stacker

This inviting number stacker will teach early number concepts by helping children to make connections within and between numbers to ten. The bases measure 2" and show four different representations for each number: numeral, standard 1-5 dice array, random dot array and 10-frame pattern.

Made from responsibly-sourced beech wood, each set includes ten number posts (2½-7") and 55 rings.

Product Info

Ref: YUS1133

Safe for: 18mths+

Packaging: Brown Box

5-Frame Tray

Made from sustainably-sourced beech wood, this natural 5-frame tray invites children to explore counting, number patterns to five, related addition and subtraction facts, and, in the process, increase their mathematical understanding. Available as single trays or as a set of six, each tray measures 15 x 3 x 1".

Product Info

Ref: YUS1089

Safe for: 18mths+

Packaging: Brown Box

1,2,3,4,5-Frame Tray Set

These beautiful wooden trays show clearly how numbers increase in size. Combine trays to explore how numbers relate to each other and can be presented as arrays. Made from sustainably-sourced beech wood. Largest tray measures 15 x 3 x 1" and smallest tray measures 3 x 3 x 1".

Product Info

Ref: YUS1090

Safe for: 18mths+

Packaging: Brown Box

Natural Sorting Tray

This attractive tray is designed to encourage all sorts of sorting! The nine sections, arranged in a 3 x 3 array, are perfect to help children sort according to particular criteria, such as size, number, color or pattern. Made from sustainably-sourced natural beech wood, the tray measures 9 x 9 x 1". Counters not included.

Growing Together

You're never too old to play! In this new book, experienced practitioner Lorraine George provides a supportive guide on how to develop effective community engagement through intergenerational practice. Old and young may experience many benefits including learning new skills together and feeling an increased sense of purpose, while also developing tolerance, emotional intelligence and social skills. Alongside 50 creative activities, you will find practical support for the initial planning stage, ideas on how to structure sessions, guidance on your role, as well as expected learning outcomes and advice on monitoring and evaluation.

Playful and engaging, our interactive tablet apps enable young learners to get hands-on with essential early numeracy and literacy skills. When used alongside our physical resources they create a unique and memorable learning experience for children. Each title is also available as a multi-user version for digital tables – contact us for further information.

NEW

Bugs and Bees Early Number App: Count, Match and Order

This engaging app is packed with activities and will keep children busy as bees as they count, match and order the appealing bugs that feature in the three games. There are two levels in each game, enabling progressive learning, and different options can be set for chosen numbers 0–10, array types, matching options and timer use to extend the challenge.

Dinosaur Bones Match and Measure App

This innovative app really measures up! Based on our bestselling dinosaur bones, the games in this app are carefully designed to develop the skills of comparing, estimating and measuring. Beginning with direct comparisons, the games progress to non-standard and standard measurements as the bones are used in different ways to consolidate and extend children's mathematical understanding.

Sorting Stones App

Sorting fun for everyone! This appealing app includes three games to help children practice their sorting, matching and categorising skills. The range of games encourages children to explore matching and sorting one criterion – shape, color or size – before progressing to two attributes for a greater challenge. Teacher options enable game settings to be fixed depending on the mathematical focus or the ability of the user.

Pre-coding Penguins App
YUS9017 1 tablet license

Pre-Coding Penguins is a fantastic app for introducing younger children to the initial concepts of programming and coding. The app is very child friendly, easy to navigate and provides challenge for a range of different abilities. Loved by both my pupils and my staff. A brilliant first-step into coding, that I can highly recommend.

Jumbo Emotion Stones

This set of tactile emotion stones includes eight large stones that are perfect (and safe) for small hands to explore. Featuring the four emotions that young children most readily identify and experience: happy, sad, surprised and angry. The set includes two examples of each feeling so that they can be used for matching activities. Each stone measures 2¾".

Product Info

Ref: YUS1071

Safe for: 2+

Packaging: Full color box

Emotion Stones

This beautifully crafted set of tactile stones is engraved with faces showing twelve common emotions: happy, sad, angry, frightened, worried, surprised, confused, bored, calm, proud, shy and embarrassed. Cast from a unique mix including real stone, each set includes twelve pebbles measuring 1¾".

Safe for: 2+

Packaging: Full color box

Talk about... How we feel

This set of 32 quality 8¼ x 5¾" photocard covers eight feelings: happy, cross, surprised, sad, confused, frightened, bored and disgusted. Featuring the same children throughout, there are four examples of each emotion included in this flexible set and a CD-ROM of the images.

Product Info

Ref: YD0357

Packaging: Plastic wallet

Self-Regulation Stones

The twelve stones in this set are designed to help children express their emotions when they do not have the language to do so. The range of simple yet engaging images will enable children to explore how they are feeling, what triggered this feeling and how it can be managed, or celebrated, constructively. Stones measure 1 3/4".
