NEW

A more sustainable choice
than our metal models!

NEW Bamboo Deluxe Chart Stand

This multi-purpose chart stand has a natural aesthetic better suited for neutral and early childhood environments. It is a more sustainable choice than our metal models because it has a smaller carbon footprint. Bamboo is a renewable resource that grows quickly and sequesters carbon, unlike steel which produces carbon. This chart stand can hang both chart paper and pocket charts and is height-adjustable upon assembly. The double-sided magnetic dry-erase whiteboard is a valuable tool for group and independent activities. Available in two color combinations.
