Articulating Desk Mount Clamp for Laptops with Built-In Cooling Fan

Articulating Desk Mount Clamp for Laptops with Built-In Cooling Fan

This intuitive counterbalance monitor arm gives laptop users both superlative positioning options – and cooling functionality. It's ideal for use in uncooled warehouses, warm-climate outdoor sites, lobbies, conference rooms, classrooms, or any place that requires a laptop with a fan. The arm clamps to any table or countertop up to 3.34-inches thick with the included hardware kit. This mount also includes a grommet mount for permanent attachment. The fan sits beneath a laptop and blows cool air into the bottom device vents. It easily attaches to the mount via standard VESA plate. To fit the laptop, place front edge along the 2 front brackets, and turn the grey knobs until side brackets grip the sides of the laptop. Then rotate rear bracket arms to clamp laptop in place. Rubber grip pads beneath the fan unit prevent sliding. This fan case has plenty of space to store and route USB cable from the fan unit into laptops. A flexible hinge allows for tilting and 360-degree rotation of the laptop. Arm positions are easily adjusted via the included Allen keys. Rated for 7 – 15-inch laptops from 4.4 - 15.4 lbs.

Features:

- Ideal for use in schools, offices, high-temperature warehouses and construction sites
- Arm joints and placement of the articulating arm on the base pole are adjustable.
- 360-degree rotation
- 75x75 and 100x100mm VESA compatible standards
- Sturdy USB-powered plastic fan unit with metal brackets cools laptops that run hot
- Brackets cradle laptop securely in place
- Rubber padding grips on the bottom of the fan help hold the unit in place
- Compatible with 7-15-inch laptops from 4.4-15 lbs.

Specifications:

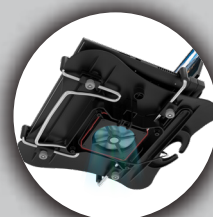

- Weight: 6.8 lbs.
- Pole height: 16.5"
- Height adjustment: 13.2" – 19.5"
- Arm adjustment: 1.9" – 5.8"
- Cooling fan dimensions: 11.8"L x 10.1"W x 2.6"D
- Laptop holder range: 7"-15" Laptops

Package includes:

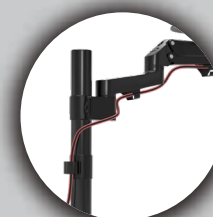

- (1) VESA plate Articulating Arm
- (1) Pole
- (1) Counter clamp
- (1) Grommet
- (1) Cooling fan
- (2) USB cord
- (1) Set of mounting hardware
