Laptop Desk Mount with USB Ports and Built-in Cooling Fan

Laptop Desk Mount with USB Ports and Built-in Cooling Fan

When you need a desk mount that works overtime, look no further than CTA Digital's VESA-Compatible Desk Mount with USB Ports and Cable Routing. This sturdy metal stand features two standard USB ports for speakers, phone charging, and whatever tech gadgets make your workspace more useful. Keep your device's charging cables neatly hidden through the center of the unit. At the top of this desk mount is a universal laptop plate with portable cooling fan, ideal for keeping the temperature of laptops down while working in any high-temperature environments like warehouses or warm-weather construction sites. To fit the laptop, place front edge along the 2 front brackets, then turn the grey knobs until side brackets grip the sides of the laptop. Then rotate rear bracket arms to clamp laptop in place. Rubber grip pads beneath the fan unit prevent sliding. This fan case has plenty of space to store and route USB cable from the fan unit into laptops. Compatible with 7-15" laptops from 4.4-15 lbs.

Features:

- Sturdy black metal desk mount
- Two standard USB ports connect to device's power
- VESA-compatible 75 x 75 and 100 x 100-milimeter mounting plate
- Interior cable routing
- Screws into countertops for added security
- Sturdy plastic fan unit with metal brackets
- Ideal for use in coffee shops, offices, high-temperature warehouses and construction sites
- USB-powered fan cools laptops that run hot due to long use or weather conditions
- Brackets cradle laptop securely in place
- Rubber padding grips on the bottom of the fan help hold the unit in place
- Compatible with 7-15-inch laptops from 4.4-15 lbs.

Specifications:

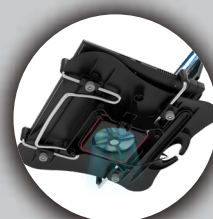

- Mount dimensions: 7.1 x 9.1 x 9.8-inches
- Cooling fan dimensions: 11-3/4"L x 10-1/8"W x 2-5/8"D
- Weight: 6.8 lbs.
