A4 VIDAA HD

Model 32A4KV

Model: 32A4KV

HD TV

SMART AND INTUITIVE

Stream movies and TV shows in HD picture quality. The Hisense A4KV uses the VIDAA operating system, which is more than just a user interface. It's the proprietary OS for Hisense Smart TVs. Originally designed in Canada, it's fully optimized for each one of our televisions. Game Mode lets you experience pure realism and stay ahead of the game with minimal input lag - which boosts your chances of scoring legendary wins!

VIDAA

VIDAA is a fast and simple smart OS that loads quickly and allows you access to some of your favourite apps like Netflix, Amazon Prime Video, Tubi or Facebook Watch.

Interact with your Hisense TV in the most natural way possible - by talking. Quickly access entertainment, get answers, and control smart devices around your home—all with just your voice.

Blinked and you missed it? Think again. The A4KV is built with motion in mind. Motion Rate image processing makes it so you can keep your eye on the ball, chase scene, or multi-player battle. Gamers see lag times drop and viewers see all the key moments in live sports or action movies. Captivating scenes grab your attention - and keep it with smooth motion.

DTS® Virtual:X™ technology is a versatile advanced post-processing package that creates an immersive audio experience that includes psychoacoustic bass enhancements and multichannel virtual surround sound. Experience more lifelike, multidimensional audio on your Hisense 32A4KV.

**Works with Alexa: Amazon device required to access*
