Poly Voyager Focus B825 UC USB-C Headset +Charging Stand (7F0J3AA)

Overview

You're not just on the call. You're in it

Make it your business to hear and be heard with the Voyager Focus UC stereo Bluetooth® headset. Move fluidly between PC and smartphone and between work and entertainment with rich, immersive stereo sound and active noise canceling designed to keep your focus on work, not on the chaos around you.

Work the way you want

With seamless connectivity to your PC or smartphone and up to 98 feet of wireless range, enjoy mobility without sacrificing audio quality. And with advanced noise cancellation, sophisticated mute controls, and immersive stereo sound, the focus is always on great audio, not background noise. It's freedom, with no loss of fidelity.

Lightweight, comfortable design

Enjoy super soft and cooling, leatherette ear cushions, wrapped around pillow-plush memory foam. The cushioned metal headband provides durability while maintaining a comfortable and secure fit. Easily take the headset on the go with folding leatherette ear cushions and included carrying case.

Connect to calls. Disconnect from distractions

Amp up your performance and keep distractions to a minimum with three precision-tuned mics and a clever mute system. Your callers will hear only you, and with on-demand active noise cancelling (ANC) you can focus on the person you're calling. High-quality, dual-ear design provides hi-fi stereo sound and a more immersive experience to enable focus in open work environments.

Features

Connect with ease

Premium wireless stereo headset works seamlessly across multiple applications on desktops, Bluetooth®-enabled desk phones, laptops, mobile phones and tablets.

Smart sensor technology

Smart sensors know when the headset is on or off; calls can be easily answered by simply putting on the headset; pause music for incoming calls, or mute a call by taking the headset off.

Focus on work–not the chaos around you

Shut the world out with on-demand active noise cancelation (ANC) that reduces distracting background sound in noisy environments so you can focus on your call or work.

Outstanding audio quality

With three precisely tuned microphones and enhanced noise cancelling, optimize your voice and minimize noise caused by wind, movement, and background sounds so your caller hears you, not your surroundings.

Worry-free mute assurance

Dedicated mute button gives you quick mute access while voice alert announces mute on/off status. Dynamic mute alert notifies you when you try to talk when muted, for worry-free mute assurance.

Premium audio experience

High-quality, dual-ear design provides hi-fi stereo sound and a more immersive experience to enable focus in open work environments.
