

## Small Interview Kit #1

MPSK-INT1

New technology always has a heavy impact on education, and podcasting is no different. One of the most interesting and valuable uses of Podcasting in Education is the concept of student-created content or active learning activities. Students getting the chance to create their own podcast for class projects and livestreams from tournaments (sports, esports, etc) allows them to take control of an aspect of their education and encourages engagement in the material.

### This Kit Includes:

#### (1) XLR Cardioid Mic with Telescopic Desktop Stand and Pop-Guard

This portable XLR multi-functional microphone provides the versatility and flexibility needed to do quality broadcasts, interviews, podcasts, esports streaming and more from nearly any location, with clear, rich sound.

#### (1) Portable Podcast Mixer Production System

This mixer is ideal for interviewing, live streaming, podcasting, recording, chatting, broadcasting, gaming, guitar and is compatible with PC, Mac and smart phones.

This feature-packed system is ideal for almost any user, with 7 customizable jingle pads, noise reduction, multi-channel streaming, 6 reverb modes, 4 preloaded audio effects, and more!

#### (2) Smart-Trek™ Deluxe Headphones

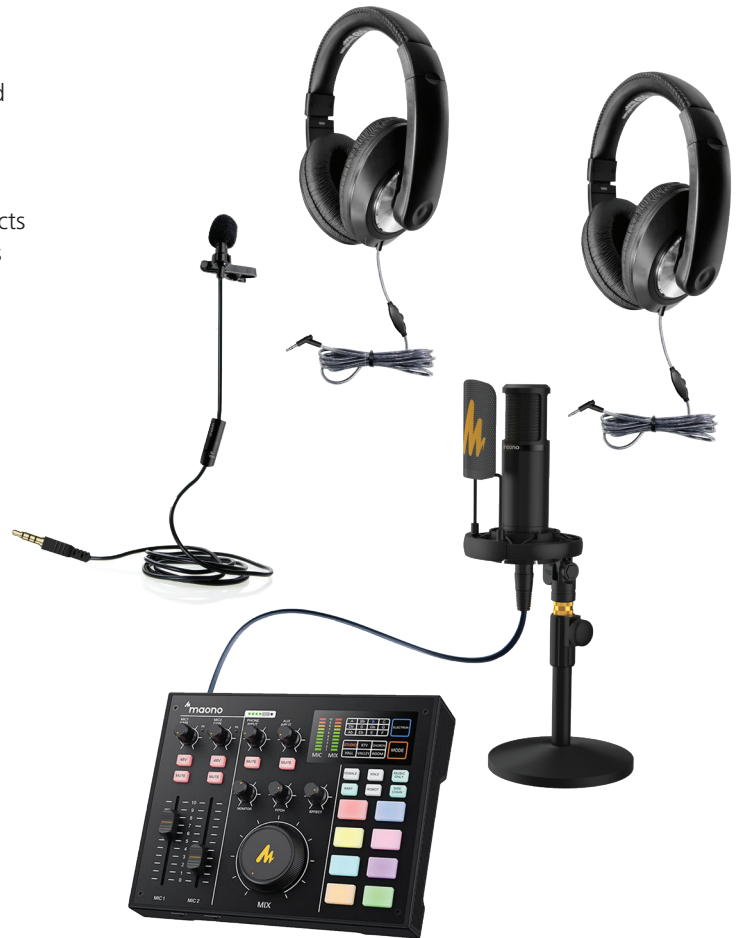

The durable, sleek Smart-Trek™ deluxe headphones are versatile – compatible with a wide variety of technologies. Designed to stand up to any environment, Smart-Trek™ headphones are built to last and are tremendously comfortable with high quality leatherette ear cushions.

Easily adjustable to fit all ages. Easy to clean; provides excellent noise-isolation. Features the durable, trusted Dura-Cord™.

#### Lavalier Microphone

This lavalier mic is easy to clip on clothes or lapel and delivers great quality sound!

Shipping: 6 lbs., 13" x 11" x 7"

# Interview Kit #1 – Small

**MPSK-INT1**

The **Portable Podcast Mixer Production System** greatly simplifies the podcast production process by integrating several digital audio mixing components into one comprehensive solution. It is very easy to set up and use in any room to record or broadcast live. It delivers superb sound quality and offers intuitive and full control that suits the needs of both beginners and seasoned broadcasters.

It offers four channels of audio mixing and easy connections to microphones, smartphones and other sources. It uses advanced engineering that allows the user to control the sound levels and add live vocals and sound effects through a comprehensive set of tools to avoid difficult post-production and editing.
