# 2-Port 4K USB-C™ KVMP Switch with DisplayPort and Power Delivery

USB-C KVM - Switch Between Two USB-C Devices

Easily switch between two USB-C devices and control them with one keyboard, one mouse and view content on one 4K monitor. IOGEAR's 2-Port USB-C KVM Switch requires no software and comes complete with the Power Delivery function, USB-C cables, and a 6-foot push-button remote switch.

Why spend extra money on features you don't need? The USB-C KVM offers the most efficient and affordable way to switch between two USB-C or Thunderbolt™ 3/4 equipped Mac® computers, PCs, iPad® or Android™ tablets and smartphones with a single-cable connection to each device without additional drivers or software.

Expand and save space with built-in USB-A hub

Expand your USB-C desktop, laptop or tablet's connectivity and quick charging functionality with built-in USB-A hub. Designed to maximize desk space for a convenient, single connection point for all your devices, easily connect four existing peripherals even if your new laptop or tablet has eliminated these ports. Instantly attach multiple peripherals through a single USB-C cable.

**Work with USB-C phones, tablets, and computers with DP alt mode**

up to 4K

Support up to 4K UHD 3840 x 2160 @60Hz

up to 100W PD3.0

Power Delivery 3.0 provide stable 100W charging through USB-C[3]
