

ELITE 10

# Comfortably better sound

Our Most Advanced Earbuds for Work & Life. Clear Calls, All-Day Comfort & Dolby Atmos Experience

## COMFORTABLY SINK INTO PERFECT SOUND

Sink into all-day comfort with our revolutionary Jabra ComfortFit technology. Sleek and supple, we scanned 62,000 ears to create our unique oval EarGel that perfectly sculpts to every different ear shape. The semi-open design removes the feeling of having your ears plugged, and the unique ear gel design helps relieve in-ear pressure to ensure all-day comfort. **Incredibly comfortable earbuds, however long you wear them.**

## SPATIAL SOUND WITH DOLBY HEAD TRACKING

Dive into fully immersive sound, powered by Dolby. With Elite 10 you get Spatial Sound with Dolby Head Tracking technology for a more immersive Dolby Atmos experience. It creates a 3D audio environment - as you move, the sound moves with you, surrounding you with sound that'll make your hearing do a double take. Complete with 10mm speakers, the lifelike audio in the Elite 10 earbuds gives your favorite movies, music and games new clarity. **The ultimate sound experience, designed to blow your mind.**

## 2X STRONGER ACTIVE NOISE CANCELLATION

Jabra Advanced Active Noise Cancellation™ (ANC) has a 2x stronger performance than our standard ANC, delivering a bespoke experience even in the most challenging environments. By adapting to both your ear and surroundings, the ANC automatically adjusts to fit every ear canal and the environment, ensuring the most optimized ANC performance wherever you are. **Get in the zone and block out everything, from coffee shop buzz to train noise on your commute.**

## CALLS WITHOUT INTERRUPTIONS

Keep every work call clear with our 6 perfectly positioned mics. The mics can distinguish which sounds are background noise and will only pick up your speaking voice, so you won't compete with the sound around even when you're outdoors. The most effective noise-reduction algorithms are automatically switched on to provide a superior call performance depending on your activity or location to keep your speech super sharp. **Never misheard, even when you're away from home.**

## LONG BATTERY LIFE

Don't get caught without charge again with up to 6 hours of pure uninterrupted battery life that lasts throughout even your biggest playlist. When your buds run out of juice, simply pop them into the wireless charging case for a further 21 hours of power, or fast charge for a rapid energy boost whenever you need it. **Battery life that fits into your life.**

## SEAMLESS SWITCHING WITH BLUETOOTH MULTIPOINT™

Tune into what you need at that moment with Bluetooth Multipoint. Your earbuds can be connected to 2 devices at once, making it super simple to switch between work and play at lightning speed. **Seamless switching whenever you need it.**

## EASY PAIRING EVERY TIME

Simple Bluetooth pairing enables your device to find your earbuds without having to connect manually. And if you're an Android™ or Windows user, Fast Pair<sup>1</sup> and Swift Pair<sup>2</sup> will have you connected in seconds. **Whatever your device, your buds are ready for a link up.**

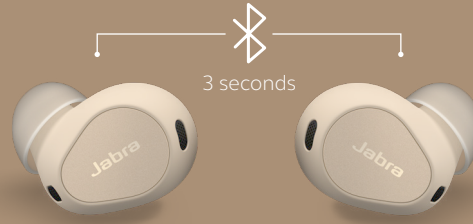

## HOW TO CHARGE

## HOW TO PAIR

Push the buttons on both earbuds for 3 seconds, then go to the Bluetooth menu of your phone to connect your earbuds, or with Fast Pair, your Android phone will instantly ask to connect to your earbuds if nearby.
