## Product Description

The new VoleoPro is a compact trolley with a unique 2 aluminum V-design pillar structure. It can be equipped with a multifunctional bridge, which can carry 1 Vileda Professional Box as well as small items like bin bag rolls, spray bottles, etc. The unique design of the trolley ensures, that large cleaning tools and accessories are not exceeding the outer limits of the small-sized trolley footprint of 0.5 m<sup>2</sup>. Big Ø150 mm fixed rear castors and Ø100 mm swivel front castors are giving the VoleoPro an easy maneuverability even in narrow corridors or when steps have to be passed. All the integrated intelligent functions like the frame holder or the exchangeable various types of hooks etc. are making the trolley to the perfect solution that grows with your demands.
