

PRIME BOX

PRIME YOUR UNIVERSE

XPG PRIME BOX ARGB & PWM CONTROLLER

It's time to transform your ordinary case into a command center. The XPG PRIME BOX grants you ultimate control of your device, from PWM fans to RGB accessories. You can personalize the lighting for multiple RGB components all at the same time using XPG PRIME ecosystem management software. With its embedded magnets and sleek low-profile design, installation is a breeze. Get ready to take your building experience to a whole new level with XPG PRIME BOX!

Control Everything

Control not only ARGB components but also all PRIME-supported peripherals to form a complete PRIME ecosystem.

RGB Lighting Customization

Complete control all ARGB components and sync with just one click.

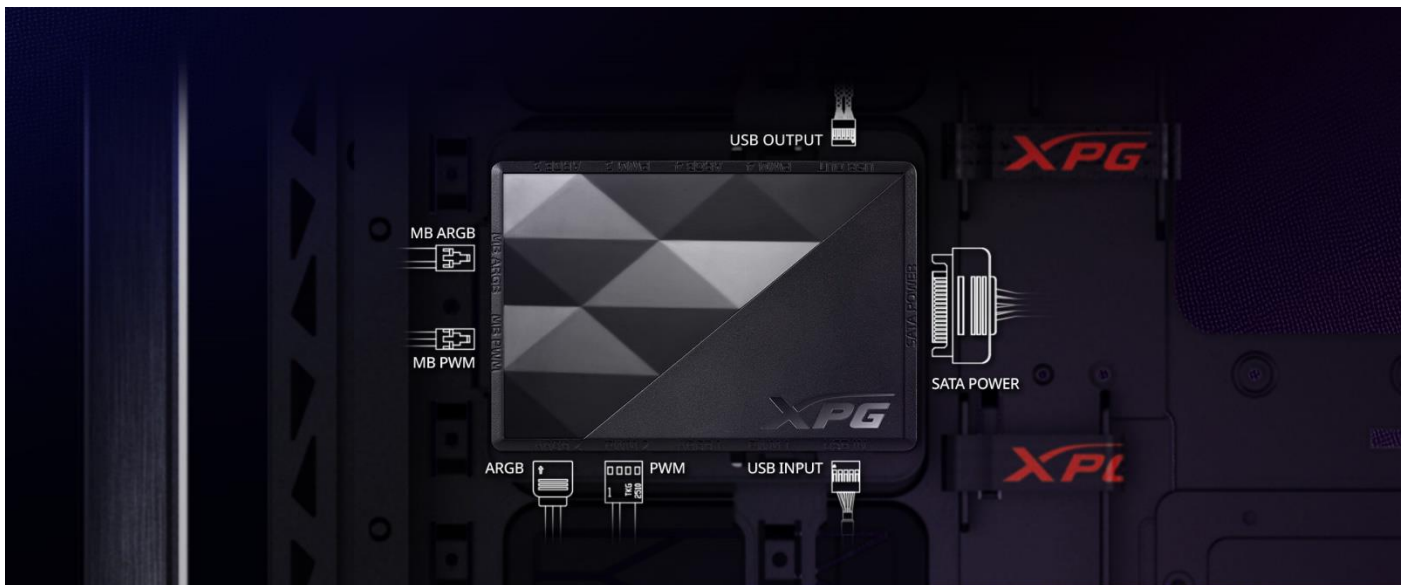

Precision PWM Control

Monitor system temperature and make precise adjustments

Features

- 4 PWM control ports support precise PWM control.
- Each ARGB port supporting up to 80 LEDs and ARGB-compatible devices.
- Powered by PRIME Software, supporting ultimate customization.
- Built-in magnet for easy installation.
- Compact size: 100 x 68.24 x 18mm.
